

**To:** Key Largo Wastewater Treatment District Board of Commissioners

**Subject:** Prepared Comments

Good Afternoon,

My name is Matthew Skinner and I live on 25 Carysfort Circle North, Key Largo, which lies within the boundaries to be served by the Key Largo Wastewater Treatment District (KLWTD). After reading the Florida state laws regarding sewage water treatment requirements, it would appear obtaining a “**variance**” is a viable option as our properties meet the criteria specified. I would like to respectfully ask, would the KLWTD consider working with us and the Florida Department of Health (FDOH) to obtain a “**variance**” for the current sewage water treatment requirements?

**Please help me understand how this “variance” can be applied to our properties and what steps need to be taken in order to do so.**

**If it can’t be applied, why not?**

Thank you for your time and consideration.

Best Regards,

Matthew Skinner
