DEP will be developing guidelines for the program. Let me check with them. The money would be available after July 1, 2021.

I will monitor but it is too early to provide all the details. When discussing the budget today on the floor, Sen Albritton said there are no clear plans yet.

We will work with DEP and DOH throughout the summer to get this together. Remember, as we had the language being added to the Dept of Health bill, Noah begged our Senator to not add the language and committed to get the residents grant dollars.

So it will be a big project this summer!

Cynthia
