Honorable Chairman,
Members of the Board of Commissioners, and
Citizens of Key Largo

The comprehensive annual financial report of the Key Largo Wastewater Treatment District, Florida for the fiscal year ended September 30, 2016, is submitted herewith pursuant to Florida Statute Chapter 218.39 and Chapter 189.436(3) governing audit requirements for special districts.

This report consists of management's representations concerning the finances of the Key Largo Wastewater Treatment District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Key Largo Wastewater Treatment District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Key Largo Wastewater Treatment District's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the Key Largo Wastewater Treatment District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Key Largo Wastewater Treatment District's financial statements have been audited by Grau & Associates, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Key Largo Wastewater Treatment District for the fiscal year ended September 30, 2016, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Key Largo Wastewater Treatment District's financial statements for the fiscal year ended September 30, 2016, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

In addition to meeting the requirements set forth above, the independent audit was also designed to meet the requirements of Chapter 10.550, Rules of the Auditor General. These standards require the independent auditor to report not only on the fair presentation of the basic financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal and state awards. The report is presented in the compliance section of this report.

In accordance with Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Key Largo Wastewater Treatment District's MD&A can be found immediately following the independent auditor's report on the basic financial statements.

The financial and accounting structure of the District consists of a single enterprise fund. The District is an Independent Special District authorized by Chapter 2002-337, Florida Statutes, enacted May 23, 2002. The principal function of the District is to provide for the design, construction and operation of wastewater treatment facilities to serve the island of Key Largo, an unincorporated portion of Monroe County, Florida. The District complies with the operating and reporting requirements of Chapter 189, Florida Statutes as applicable to Special Districts.

The District develops an annual budget to provide for the operations and capital programs of the District. A draft budget is developed by management and presented to the Board of Commissioners for review, revision and ultimate approval. The budget is adopted by the Board of Commissioners, by resolution, for the upcoming fiscal year of October 1st through September 30th.

The District's mission is part of larger state and national initiatives to save the Everglades and Florida Bay ecosystems for the benefit of future generations. In Key Largo, and typically all the Florida Keys except Key West, the disposal of domestic sewage has been historically handled by septic tanks and cesspits. Many commercial operations utilized small package sewage treatment plants. Florida statute 99-395 mandated the district establish goals which included the introduction of advanced wastewater treatment (AWT) and disposal infrastructure to serve all residents and commercial operations of Key Largo by July, 2010. This was later amended by the legislature in 2010 and the deadline for Advanced Wastewater Treatment standards required by the Statute 99-395 was extended to 2016.

Over 13,000 individual parcels of land exist on Key Largo. The District designed, engineered and constructed a main transmission line and associated collection systems to provide vacuum based collection services to the District's entire service area excluding properties where it was cost prohibitive to do so. This project was completed and placed into service during fiscal year 2011, which was 4 years earlier than the extended deadline. The completion of this project concluded the construction of the District's basic wastewater infrastructure throughout its entire service area, however, those unique properties that were unable to be provided with vacuum based collection services were given the option of joining the District's grinder pump project that started in fiscal year 2013, and was completed before the 2016 deadline. This project provides approximately 165 parcels with grinder pump based collection services.

The District also upgraded the plant capacity from a 2.3 million gallon per day (mgd) advanced wastewater treatment plant to 3.45mgd to provide treatment services to the Village of Islamorada service area. This project was completed in FY 2016. In FY2017, the District will complete the chemical feed system upgrade project, and the ongoing blower upgrade project, as well as beginning on an upgrade to two of its seven vacuum stations.

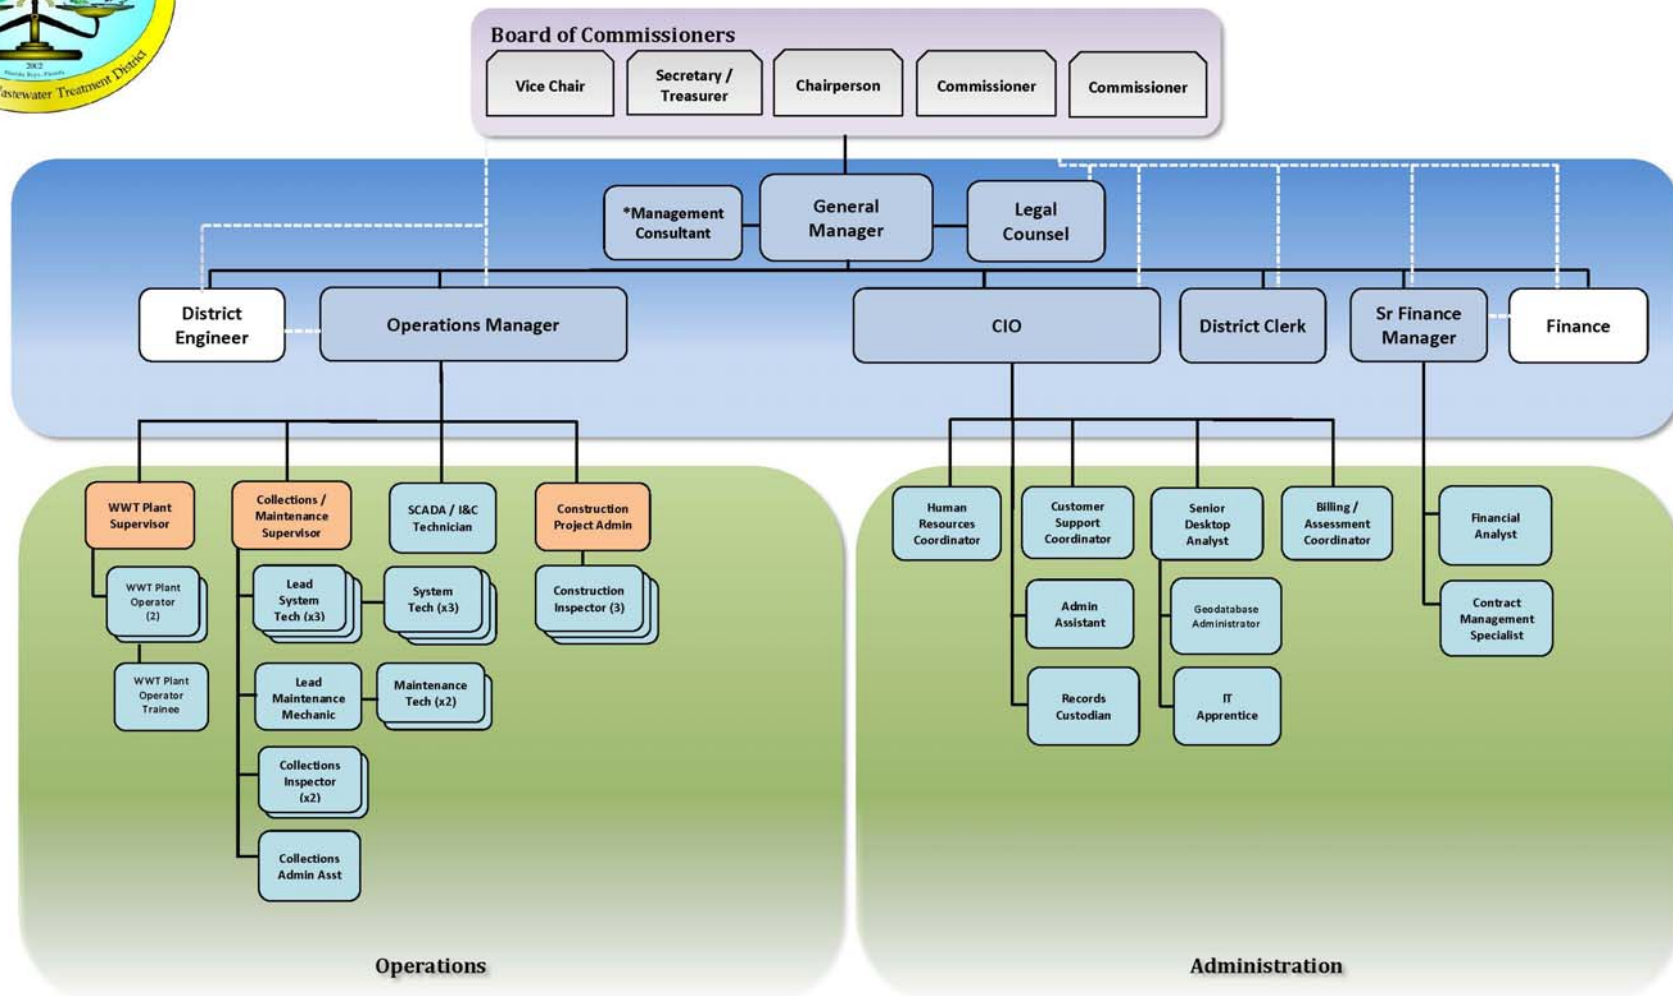

The preparation of this comprehensive annual financial report for the Key Largo Wastewater Treatment District was made possible by the dedicated efforts of all members of the District's staff. Each staff member has our sincere appreciation for the contributions made to this report.

In closing, without the leadership and vision of the Board of Commissioners, preparation of this report would not have been possible.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Key Largo Wastewater Treatment District
Key Largo, Florida

Report on the Financial Statements

We have audited the accompanying basic financial statements of Key Largo Wastewater Treatment District, Key Largo, Florida ("District") as of and for the fiscal year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of September 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The introductory section, statistical section, and budgetary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory, statistical sections and budgetary information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 26, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Report on Other Legal and Regulatory Requirements

We have also issued our report dated April 26, 2017, on our consideration of the District's compliance with the requirements of Section 218.415, Florida Statutes, as required by Rule 10.556(10) of the Auditor General of the State of Florida. The purpose of that report is to provide an opinion based on our examination conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.

Management's Discussion and Analysis

KEY LARGO WASTEWATER TREATMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

On behalf of the Key Largo Wastewater Treatment District, Key Largo, Florida (District), management presents this narrative overview and analysis of financial activities of the District to readers of the District's financial statements for the fiscal year ended September 30, 2016. We are including this discussion and analysis in order to provide the reader with a better understanding of the District's overall financial position. This narrative should be considered in conjunction with the additional information contained in the introductory transmittal letter and the District's financial statements which follow in this section.

Overview of Operations

The District was formed as a special district with the election of inaugural commissioners on November 5, 2002, as provided in Chapter 2002-337, Florida Statutes. The District's mission includes the introduction and operation of advanced wastewater treatment and disposal infrastructure to serve all residents and commercial operations on the unincorporated island of Key Largo by the year 2010.

The District's activities in FY2003 and FY2004 were focused on administrative responsibilities associated with organization of a new public utility and on implementing a demonstration project to serve 760 residential and commercial customers in the Key Largo Trailer Village and Key Largo Park communities. Contracts to design and build a demonstration project consisting of a 0.183 mgd (million gallons per day) wastewater treatment plant and to install collection systems serving 850 EDU's (equivalent dwelling units) were awarded.

In FY2005 and FY2006 the District commenced construction of the Key Largo Trailer Village and Key Largo Park demonstration project, initiating service to customers in May, 2006. The District also focused on the expansion of service to serve the northern half of the island by initiating the design and engineering of the North Components project. This project consists of expansion of the treatment plant from 0.183 to 2.3 mgd treatment plant to ultimately serve the entire island with a single regional treatment facility, construction of a main transmission line serving the northern half of the island, and installing vacuum collection systems in the four northern service areas. Construction of the North Transmission force main was initiated in July, 2006. Contracts for design and engineering of the regional treatment plant and the collection systems serving 3,700 EDU's associated with the North Components project were also awarded.

In FY2007 and FY2008 the District focused on construction of the North Components project. A north transmission force main was completed. Construction in all four northern service area collection systems was undertaken (Basins A, B, C, and D), and construction of the 2.3 mgd treatment plant expansion was initiated in October, 2008. The District also initiated design and engineering of a South Components project consisting of a transmission line to serve the southern half of the island and installation of vacuum collection systems in seven southern service areas (Basins E – K).

In FY2009, construction of the North Components collection systems was essentially completed. Expansion of the regional treatment plant continued with completion of a 3,700 ft. deep well and all treatment tanks. Construction of the South Components project was initiated in Basins E and F.

Beginning in 2005, the District has pursued a policy of levying special assessments on all parcels to be benefited by new construction 1-2 years preceding service availability. The assessments on the benefiting property owners are intended to recover a portion of the cost of the improvements. Each parcel owner had the choice to pay the assessment in full or as a non ad valorem tax over a 20 year period.

Overview of Operations (Continued)

In FY2011 and FY2012 the District completed its 2.3mgd regional treatment plant and collection system and placed it into service. In FY2012 the District entered into an interlocal agreement with the Islamorada Village of Islands to treat its wastewater, and sell treatment plant capacity space of 1.104 million gallons of average daily flow, and in FY2014 the District began receiving flows from Islamorada for treatment. During FY2015 through FY2016 this treatment plant capacity was upgraded to 3.45mgd to accommodate the additional flows from Islamorada. This facility is currently meeting Advanced Wastewater Treatment Standards (AWT). The grinder pump project commenced during FY2012 and was substantially completed in FY2016. The grinder pump project provides centralized sewer service to properties where it was cost prohibitive to provide a vacuum based collection system.

The District's Single Enterprise Fund

The District uses proprietary fund accounting to record and report its results of operation as a single enterprise fund. This method of accounting is used when an entity charges customers for the services it provides.

Basic Financial Statements

The basic financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., earned but unused vacation leave)

District's Net Position

Total assets of the District at September 30, 2016, were \$191,567,462 and total liabilities amounted to \$79,795,151. Total net position of the District was \$111,772,311. For the prior year, total assets of the District at September 30, 2015, were \$183,706,747 and total liabilities amounted to \$90,439,581 and total net position of the District was \$93,267,166.

Total current assets of \$14,772,720 at September 30, 2016 consisted of \$1,240,285 in amounts due to the District from other government agencies and unrestricted cash and cash equivalents of \$8,796,484. Restricted current assets included cash and cash equivalents of \$4,693,741 restricted for debt service and reserves for future repairs and replacements. For the prior year, total current assets of \$15,828,874 at September 30, 2015 consisted of \$886,004 in billings due from Florida Keys Aqueduct Authority and \$676,361 due from other governments. The District had unrestricted cash and cash equivalents of \$9,362,638 and restricted cash and cash equivalents of \$4,851,501. These funds were restricted for debt service and reserves for future repairs and replacements.

Total noncurrent assets at September 30, 2016 of \$176,794,742 consisted essentially of \$13,340,925 in amounts due from other governments, \$59,095 in prepaid expense and other assets, \$31,857,432 in assessments levied but not received, \$131,537,290 in land, equipment, and infrastructure net of accumulated depreciation owned by the District. In the prior year, total noncurrent assets at September 30, 2015 of \$167,877,873 consisted essentially of \$55,095 in prepaid expenses and other assets, \$34,522,422 in assessments levied but not received, and \$133,300,356 in land, equipment, construction in progress, and infrastructure net of accumulated depreciation owned by the District.

District's Net Position (Continued)

Total liabilities at September 30, 2016 of \$79,795,151 included \$297,383 due to vendors for goods and services rendered \$28,497 due to construction contractors for contracts and retainage payable, \$256,147 in accrued interest expense, \$47,178,256 in loans payable, of which \$4,387,403 is due next year, and \$31,857,432 for assessments levied but not yet received. In the prior year, liabilities at September 30, 2015 of \$90,439,581 included \$277,057 due to vendors for goods and services rendered \$479,546 due to construction contractors, \$298,006 in accrued interest expense, \$54,702,806 in loans payable, and \$34,522,422 for assessments levied but not yet received.

Key components of the District's net position are reflected in the following table:

	<u>Key Components of Net Position</u>	
	September 30,	
	2016	2015
Current and other assets	\$ 60,030,172	\$ 50,406,391
Capital assets, net of depreciation	131,537,290	133,300,356
Total assets	<u>191,567,462</u>	<u>183,706,747</u>
Current liabilities	4,969,430	5,240,859
Long-term liabilities	74,825,721	85,198,722
Total liabilities	<u>79,795,151</u>	<u>90,439,581</u>
Net position		
Net investment in capital assets	84,330,537	78,118,004
Restricted	4,437,594	4,553,495
Unrestricted	23,004,180	10,595,667
Total net position	<u>\$ 111,772,311</u>	<u>\$ 93,267,166</u>

District Revenues, Expenses, and Changes in Net Position

The District's net position increased by \$18,505,145 during FY2016; from \$93,267,166 on September 30, 2015 to \$111,772,311 on September 30, 2016. Total revenues for the period were \$29,679,656 and total expenses for the period were \$11,174,511. For the prior year, total revenues for the period were \$15,838,166 and total expenses for the period were \$11,039,608.

For FY2016, operating revenues consisted of \$9,369,902 in charges to customers for services and related fees. Non-operating revenues consisted of \$14,747,826 in intergovernmental income, of which \$14,340,925 is from the Interlocal agreement with Monroe County for the Mayfield funding swap. The District received \$4,284,578 in assessments, \$23,108 in interest income and \$1,257,882 in grant income. For FY2015, operating revenue consisted of \$9,024,977 in charges to customers for services and related fees. Non-operating revenues consisted of \$4,603,764 in assessments, and \$18,860 in interest income, and a \$795,356 in grant income.

District Revenues, Expenses, and Changes in Net Position (Continued)

Key elements of the change in net position are reflected in the following table:

<u>Change in Net Position</u>		
Fiscal Year Ended September 30,		
	2016	2015
Operating activities:		
Charges for services	\$ 9,369,902	\$ 9,024,977
Cost of sales	(3,462,536)	(3,434,263)
Administration	(2,061,163)	(1,933,311)
Other	(134,052)	(175,224)
Depreciation	(4,188,921)	(4,003,065)
Net operating (loss)	<u>(476,770)</u>	<u>(520,886)</u>
Nonoperating activities:		
Grant revenue	1,257,882	795,356
Assessments	4,284,578	4,603,764
Interest income	23,108	18,860
Intergovernmental income	14,747,826	1,395,209
Gain (loss) on sale of assets	(3,640)	-
Interest expense	<u>(1,327,839)</u>	<u>(1,493,745)</u>
Net nonoperating activities	<u>18,981,915</u>	<u>5,319,444</u>
Change in net position	<u>18,505,145</u>	<u>4,798,558</u>
Net position, beginning	<u>93,267,166</u>	<u>88,468,608</u>
Net position, ending	<u>\$ 111,772,311</u>	<u>\$ 93,267,166</u>

Capital Assets and Project Plan

The District adopted a master facilities plan in March, 2006 to construct wastewater collection transmission and treatment facilities to serve the entire island of Key Largo. The wastewater transmission and treatment facilities project was substantially completed and in service at the end of FY2011.

The remaining project consisted of the connection of approximately 165 properties where it was cost prohibitive to provide vacuum based collection services. These properties require a grinder pump based collection system. Work on the grinder pump project commenced during fiscal year 2012 and was substantially complete and in service at September 30, 2016. The District also completed work on the treatment plant expansion project to increase the treatment plant capacity from a 2.3 mgd capacity to 3.45 mgd. The plant expansion project was necessary to accommodate the wastewater flows that the District receives from the Village of Islamorada.

At September 30, 2016 the District had \$155,853,509 invested in land, infrastructure, equipment, and construction in progress. Depreciation of \$24,316,219 has been taken, which resulted in a net book value of \$131,537,290. More detailed information about the District's capital assets is presented in the notes to the financial statements.

Capital Debt

The District's capital debt decreased by \$7,524,550 during the current fiscal year, primarily due to an advanced debt payment of \$3,300,000 and the regularly scheduled annual debt service payments. More detailed information about the District's capital debt is presented in the notes to the financial statements.

Economic Factors and Next Year's Budget

The unemployment rate for Monroe County was 3.2% at November 2016, which is a slight decrease from a rate of 3.3% a year ago. The rate still compares favorably to the state's average unemployment rate of 4.9%.

Assessed property values in the District's service area increased in 2016; however, the District has no taxing authority, and no District revenue is derived from or dependent upon ad-valorem taxation. Therefore, this increase in property value should have no significant effect on the current or future financial performance.

During FY2017, the District will complete the chemical feed system upgrade project, the blower upgrade project, and start the upgrades of two of the District's seven vacuum stations.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, landowners, taxpayers, customers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the financial resources it manages and the stewardship of the facilities it maintains. If you have questions about this report or need additional financial information, contact the Key Largo Wastewater Treatment District's Finance Department at 103355 Overseas Highway, Key Largo, Florida, 33037.

(Increase)/Decrease in due from other governments	(1,240,285)
(Increase)/Decrease in inventory	3,843
(Increase)/Decrease in prepaid	8,772
Increase/(Decrease) in accounts payable	20,326
Increase/(Decrease) in other post employment benefits	8,892
Increase/(Decrease) in compensated absences payable	8,692
Total adjustments	<u>3,878,710</u>
Net cash provided (used) by operating activities	<u>\$ 3,401,940</u>

See accompanying notes to financial statements

KEY LARGO WASTEWATER TREATMENT DISTRICT NOTES TO FINANCIAL STATEMENTS

NOTE 1 – REPORTING ENTITY

The Key Largo Wastewater Treatment District, Key Largo, Florida (“District”) is an autonomous independent Special District and political body formed in 2002 by the Legislature of the State of Florida by House Bill 471, enacted as Chapter 2002-37, Laws of Florida, for the purpose of carrying out the planning, acquisition, development, operation, and management of a wastewater management system within the District’s boundaries in Key Largo, Monroe County, Florida. This responsibility was transferred from the Florida Keys Aqueduct Authority (“FKAA”) to the District pursuant to an Interlocal Agreement dated February 26, 2003 between the District, Monroe County, and FKAA. The District is governed by a five member Board of Directors which are elected in a nonpartisan election.

The financial statements were prepared in accordance with Governmental Accounting Standards Board (“GASB”) Statements. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District is considered to be financially accountable and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District operates as a proprietary fund type, specifically an enterprise fund. The District’s financial statements are presented on the full accrual basis of accounting and conform to accounting principles generally accepted in the United States of America. The focus of a proprietary fund is the measurement of economic resources. Under this method revenues are recorded when earned and expenses are recorded when the liability is incurred, and all assets and liabilities associated with the entity are included on the balance sheet. The generally accepted accounting principles applicable to proprietary funds are similar to those applicable in the private sector.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the fund’s principal ongoing operations. The operating revenues of the District are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

New Accounting Standards Adopted—During fiscal year 2016, the District adopted one new accounting standards as follows:

GASB 76 - The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments
The Statement identifies—in the context of the current governmental financial reporting environment—the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with generally accepted accounting principles (GAAP) and the framework for selecting those principals.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deposits and Investments – The District’s cash and cash equivalents are considered to be cash on hand and demand deposits (interest and non-interest bearing).

The District has elected to proceed under the Alternative Investment Guidelines as set forth in Section 218.415 (17) Florida Statutes. The District may invest any surplus public funds in the following:

- a) The Local Government Surplus Trust Funds, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act;
- b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- c) Interest bearing time deposits or savings accounts in qualified public depositories;
- d) Direct obligations of the U.S. Treasury.

Securities listed in paragraph c and d shall be invested to provide sufficient liquidity to pay obligations as they come due.

The District records all interest revenue related to investment activities in the respective funds. Investments are measured at amortized cost or reported at fair value as required by generally accepted accounting principles.

Inventories – Inventories at September 30, 2016 represent chemicals and supplies on hand carried at their historical cost.

Prepays – Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Restricted Assets – Restricted assets represent cash and other assets whose use is restricted by legal requirements, amounts set aside to meet sinking fund requirements and reserves for future repairs and replacements.

Capital Assets – Capital assets include property, plant, equipment and wastewater system. The District maintains a \$750 threshold and estimated useful life of more than one year for additions to equipment. The remainder of capital assets with a value in excess of \$5,000 and an estimated useful life of in excess of two years are capitalized. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair value at the date of donation.

Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized but expensed as incurred. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Equipment – field and plant equipment	7-10
Equipment – vehicles	5
Infrastructure and building	30-40

The District’s wastewater system was completed in sections. Depreciation begins when the section is completed and placed in service.

Long-term Obligations – The long-term debt of the District is reported as a liability in the statement of net position.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated Absences – It is the District's policy to permit employees to accumulate earned but unused sick leave and vacation leave benefits. Sick leave may be accumulated up to 40 hours and vacation leave up to 8 hours per month for employees with the District under 5 years, and 12 hours per month for employees with the District over 5 years. New employees earn vacation time but are not able to use it until after the six months probationary period. All sick and vacation leave is accrued when earned in the government-wide and proprietary fund financial statements.

Other Postemployment Benefits (OPEB) – Effective October 1, 2009, the District adopted GASB Statement No. 45, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The effect of this adoption was to establish uniform reporting standards for benefit plans associated with postemployment benefits other than pensions, and to change the measurement, recognition, and display of OPEB expense and related liabilities (assets), note disclosures, and required supplementary information (RSI) in annual financial reports of governmental entities. Implementation of this statement had no effect on fiscal years prior to fiscal year 2010. See Note 7, Other Postemployment Benefits (OPEB), for more information on the District's OPEB Plan.

Deferred Outflows/Inflows of Resources – Deferred outflows of resources represent a consumption of net position that applies to future reporting period(s). For example, the District would record deferred outflows of resources on the statement of net position related to debit amounts resulting from current and advance refundings resulting in the defeasance of debt (i.e. when there are differences between the reacquisition price and the net carrying amount of the old debt).

Deferred inflows of resources represent an acquisition of net position that applies to future reporting period(s). For example, when an asset is recorded in the governmental fund financial statements, but the revenue is unavailable, the District reports a deferred inflow of resources on the balance sheet until such times as the revenue becomes available.

Revenue Recognition – Revenues that do not meet revenue recognition requirements (not earned) are recorded as unearned revenue.

Assessments are non-ad valorem assessments on parcels served within the District. The assessments were levied in phases one to two years before the related infrastructure for the area was completed. The assessments may be paid in one lump sum or allocated over a 20 year period. For assessments paid over a 20 year period, interest will be the lesser of the District's borrowing rate or 8% per year. There is no penalty for prepayments or deferred payments. The fiscal year for which annual assessments are levied begins on October 1 with discounts available for payments through February 28 and become delinquent on April 1. The District's annual assessments are billed and collected by the County Tax Assessor/Collector. The amounts remitted to the District are net of applicable discounts or fees and include interest on monies held from the day of collection to the day of distribution. The assessments were levied to fund a portion of the costs of the infrastructure being constructed to benefit parcels served and are reported as nonoperating revenues.

The portion of assessments receivable due and earned within the current fiscal period is considered to be revenue of the current period. The remainder is recorded as unearned revenue in the statement of net position.

Fund Equity/Net Position - Net position is the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position in the government-wide financial statements are categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents net position related to infrastructure and property, plant and equipment. Restricted net position represents the assets restricted by the District's debt covenants or other contractual restrictions. Unrestricted net position consists of the net position not meeting the definition of either of the other two components.

The District first uses restricted resources, followed by unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 3 – RESTRICTED CASH AND DEPOSITS

Cash and investment amounts restricted for specific use by outside parties at September 30, 2016 are as follows:

Restricted for debt service on loans	\$	1,396,783
Restricted for repair, replacement and windstorm damage		3,296,958
	\$	<u>4,693,741</u>

Deposits

The District's cash balances were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

NOTE 4 – CAPITAL ASSETS

The table below summarizes the capital activity for the fiscal year ended September 30, 2016.

	Beginning Balance	Additions	Deletions	Transfers	Ending Balance
Capital assets, not being depreciated:					
Land	\$ 2,012,494	\$ -	\$ -	\$ -	\$ 2,012,494
Construction in progress	5,054,646	1,612,583		(4,670,280)	1,996,949
Total capital assets, not being depreciated	<u>7,067,140</u>	<u>1,612,583</u>	<u>-</u>	<u>(4,670,280)</u>	<u>4,009,443</u>
Capital assets, being depreciated:					
Buildings	866,398	311,601	-	(384,283)	793,716
Treatment facilities	32,519,242	102,388	-	4,183,829	36,805,459
Collection system	112,051,154	345,350	-	866,489	113,262,993
Equipment	934,489	57,574	(14,410)	4,245	981,898
Total capital assets, being depreciated	<u>146,371,283</u>	<u>816,913</u>	<u>(14,410)</u>	<u>4,670,280</u>	<u>151,844,066</u>
Less accumulated depreciation for:					
Buildings	(97,995)	(26,457)	-	83,563	(40,889)
Treatment facilities	(5,564,557)	(1,224,878)	-	149,081	(6,640,354)
Collection system	(13,869,531)	(2,801,990)	-	(232,105)	(16,903,626)
Equipment	(605,984)	(135,596)	10,769	(539)	(731,350)
Total accumulated depreciation	<u>(20,138,067)</u>	<u>(4,188,921)</u>	<u>10,769</u>	<u>-</u>	<u>(24,316,219)</u>
Total capital assets, being depreciated, net	<u>126,233,216</u>	<u>(3,372,008)</u>	<u>(3,641)</u>	<u>4,670,280</u>	<u>127,527,847</u>
Total capital assets, net	<u>\$ 133,300,356</u>	<u>\$ (1,759,425)</u>	<u>\$ (3,641)</u>	<u>\$ -</u>	<u>\$ 131,537,290</u>

In connection with the District's wastewater treatment project, the District has entered into various contracts with engineers and contractors to construct the collection system and treatment plant. At September 30, 2016 the District had commitments of \$1,736,574 with respect of unfinished capital projects.

For the year ended September 30, 2016, no interest costs relating to construction were capitalized. The interest costs incurred and charged to expense was \$1,327,839 for the year ended September 30, 2016.

NOTE 5 – INTERLOCAL AGREEMENTS

On May 22, 2012, the District entered into an interlocal agreement with Islamorada Village of Islands (“Islamorada”) for wastewater services. Under the terms of the agreement, the District will provide wastewater treatment and disposal services to Islamorada for a period of 30 years. The fee charged to Islamorada is \$4.65 per thousand gallons and adjusted in accordance with true-up provisions in the agreement. Wastewater treatment and disposal services commenced during June, 2014. Total revenue earned relating to wastewater services provided to Islamorada during the year ended September 30, 2016 totaled \$563,225. Furthermore, Islamorada purchased capacity from the District and also agreed to pay for its proportionate share of plant capacity upgrades that the District constructed. The District charged Islamorada \$10,176,000 for the purchase of capacity.

Florida Keys Water Quality Improvement Program

On October 31, 2014, the District entered into an interlocal agreement with the City of Marathon (“City”), Florida, and the Village of Islamorada (“Village”), Florida, to reallocate future grant revenue related to the United States Army Corps of Engineers’ Florida Keys Water Quality Improvement Program (“FKWQIP”). The original FKWQIP agreement authorized grant reimbursements to the District, City, and Village in a total amount of \$100,000,000. Under the agreement, the District is eligible to receive \$28,658,070 in grant reimbursements, of which it had received \$16,406,470 as of September 30, 2015. During the current fiscal year the District received \$749,000 of funding which increased the total amount received to \$17,155,470.

Monroe County Interlocal Agreement

On March 11, 2015, the District was awarded a \$17,000,000 grant from the State of Florida Department of Environmental Protection to be applied toward the construction of the wastewater system improvements. During the current fiscal year the District executed an interlocal agreement with Monroe County whereby the grant was assigned to Monroe County in exchange for the amount being repaid over a 10 year period with zero interest. The agreement also stipulated that during the first three years of the assignment, Monroe County would be obligated to repay a maximum of \$1,000,000 per year. Furthermore, since the note is being repaid over 9 more years, the District discounted the remaining \$16,000,000 due from Monroe County over 9 years (9 years remaining at 9/30/16) using a 2.04% discount rate to arrive at a discounted receivable balance of \$13,340,925. This amount is included as due from other governments.

NOTE 6 – LONG-TERM DEBT (Continued)

State Revolving Fund Loans

As of September 30, 2016, the District has entered into four revolving loan agreements with the State of Florida Department of Environmental Protection Clean Water State Revolving Fund Loan program to finance its wastewater utility capital projects. Under the terms of the loan agreements pledged revenues shall be the gross revenues, together with system development charges, and annual wastewater assessments, derived yearly from the operation of the sewer system after payment of operating and maintenance expenses and any yearly payment obligation of any senior debt obligations. Each loan shall be repaid in 40 semiannual payments. Through September 30, 2016 the District has borrowed a total of \$57,818,739 under these agreements, including capitalized interest. As of September 30, 2016 repayments have begun on all loan agreements. The breakdown as of September 30, 2016 of the total amounts authorized, the fixed weighted average interest rate, the estimated semi-annual payment amount and the amounts drawn to date on each loan is as follows:

SRF Loan Agreement	Total Loan Authorized Amount	Interest Rate	Semi-Annual Payment Amount	Total Obligation September 30, 2016
WW46401P	\$ 22,670,199	2.41% - 2.68%	\$ 779,480	\$ 17,114,490
WW464010	32,077,094	2.49% - 2.92%	1,059,290	11,144,162
WW464020	891,422	2.56%	29,190	512,189
WW464030	2,180,024	2.68%	73,049	1,843,129
Total	<u>\$ 57,818,739</u>		<u>\$ 1,941,009</u>	<u>\$ 30,613,970</u>

Series 2013 and 2014

On December 19, 2013, the District issued \$10,000,000 of Utility Revenue Refunding Bond Series 2013 due October 15, 2027, with a fixed interest rate of 2.70%. On January 6, 2014, the District issued \$10,000,000 of Utility Revenue Refunding Bond Series 2014 due October 15, 2027, with a fixed interest rate of 2.70%. The Bonds were issued to refund a portion of the District's outstanding Utility Revenue Bond Series 2010 (the "Refunded Bonds"), and pay certain costs associated with the issuance of the Bonds. Interest and principal is to be paid quarterly on each October 15, January 15, April 15 and July 15.

The financing documents allow for the prepayment of the principal balance in whole on a scheduled payment date with a 1% prepayment premium. Extraordinary prepayments are also allowed in part once a year, on a payment date, specifically from grant and loan proceeds with no prepayment premium.

The District shall establish and collect fees and charges for the product services and facilities of its system to provide in each fiscal year net revenues, pledged system development charges, wastewater connection fees and any other special assessment proceeds, equal to at least 110% of the annual debt service becoming due in such fiscal year. The District is in compliance with those requirements of the Bonds at September 30, 2016.

Long-term debt transactions

Changes in long-term liability activity for the fiscal year ended September 30, 2016 were as follows:

	Beginning Balance	Additions	Payments	Ending Balance	Due Within One Year
State Revolving Loan WW46401P	\$ 18,208,946	\$ -	\$ 1,094,456	\$ 17,114,490	\$ 1,122,973
State Revolving Loan WW464010	16,191,118	-	5,046,956	11,144,162	1,843,664
State Revolving Loan WW464020	556,602	-	44,413	512,189	45,557
State Revolving Loan WW464030	1,937,922	-	94,793	1,843,129	97,350
Series 2013 Bonds	8,903,434	-	621,918	8,281,516	638,881
Series 2014 Bonds	8,904,784	-	622,014	8,282,770	638,978
Compensated absences	63,715	11,887	3,195	72,407	-
Total long term debt	<u>\$ 54,766,521</u>	<u>\$ 11,887</u>	<u>\$ 7,527,745</u>	<u>\$ 47,250,663</u>	<u>\$ 4,387,403</u>

NOTE 6 – LONG-TERM DEBT (Continued)

Long-term debt transactions (Continued)

The District's schedule of future debt service requirements is as follows:

Year ending September 30,	Total		
	Principal	Interest	Total
2017	\$ 4,387,403	\$ 1,206,844	\$ 5,594,247
2018	4,503,058	1,091,190	5,594,248
2019	4,621,766	972,481	5,594,247
2020	4,743,608	850,639	5,594,247
2021	4,868,667	725,580	5,594,247
2022-2026	16,741,622	2,096,126	18,837,748
2027-2031	7,240,048	307,610	7,547,658
2032	72,084	966	73,050
	<u>\$ 47,178,256</u>	<u>\$ 7,251,436</u>	<u>\$ 54,429,692</u>

NOTE 7 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description

The District provides post-employment healthcare insurance coverage to eligible individuals pursuant to the requirements of State law.

Eligibility - Eligible individuals include all regular, full-time employees of the District who retire from active service and are eligible for retirement or disability benefits under one of the pension plans sponsored by the District. Under certain conditions, eligible individuals for healthcare coverage also include spouses and dependent children.

Explicit Benefit Cost Sharing – Retiree and Dependents - Retirees must pay 100% of the monthly premium as determined by the insurance carrier. The premium varies depending on whether the retiree elects single or spouse / family coverage.

Implicit Benefits - Employees are permitted to continue coverage under the plans offered by the District in retirement by paying 100% of the cost of the premium for the continued coverage. This arrangement creates an implicit cost and liability for the District because the premium charged for these retirees is the same as the premium charged for active employees, who are younger than retirees on average. Since the same premiums are charged to active employees and retirees, and the District is unable to obtain age-adjusted premium information for the retirees, GASB 45 requires the district to calculate age-adjusted premiums for the purpose of projecting future benefits for retirees.

Surviving Spouse Benefit - Surviving beneficiaries continue to receive access to the District's medical coverage after the death of the retired employee as long as they pay the required premiums

Disability Retirement Benefits - There are two types of disability retirement available to employees of the District: (1) in-line-of-duty disability retirement and (2) regular disability retirement. To qualify for either type of disability retirement, members must be totally and permanently disabled to the extent that they are unable to work in any job for any employer. In-line-of-duty disability benefits are available to members on their first day of employment. To be eligible for regular disability retirement, members must complete eight years of creditable service with the District.

Post Employment Benefits - Currently, 0 retired employees receive health benefits from the District. Future retirees will contribute 100% for coverage.

The District recognizes the cost of providing health insurance annually as expenses in the Statement of Revenues, Expenses and Changes in Net Position as costs are incurred. For the year ended September 30, 2016, the District recognized \$0 for its share of insurance premiums for currently enrolled retirees.

NOTE 7 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

Plan Description (Continued)

The District's annual other post-employment benefit (OPEB) cost (expense) for its plan is calculated based on the annual required contribution of the employer (ARC), an amount determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation:

Normal Cost	\$ 8,040
Supplemental Cost	8,750
Interest	333
Annual Required Contribution (ARC)	<u>17,123</u>
Interest on Net OPEB Obligation	2,654
Adjustment to ARC	<u>(8,022)</u>
Annual OPEB Cost (Expense)	11,755
Actual Benefit Payments	<u>(2,863)</u>
Increase in Net OPEB Obligation	8,892
Net OPEB Obligation - September 30, 2015	<u>66,354</u>
Net OPEB Obligation - September 30, 2016	<u>\$ 75,246</u>

The district's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligations were as follows:

<u>Fiscal Year Ending</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
September 30, 2014	19,414	14%	55,358
September 30, 2015	10,996	24.36%	66,354
September 30, 2016	11,755	0%	75,246

As of October 1, 2014, the most recent valuation date, the plan was 0% funded. The accrued liability for benefits was \$73,812 and the value of assets was \$0, resulting in an unfunded accrued liability (UAL) of \$73,812. The covered payroll (annual payroll of active employees covered by the plan) was not available, and the ratio of the UAL to the covered payroll was not applicable. Valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the accrued liabilities for benefits.

Methods and assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the District and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in accrued liabilities and the value of assets, consistent with the long-term perspective of the calculations.

NOTE 7 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

Methods and assumptions (Continued)

In the October 1, 2014 valuation, the Projected Unit Credit cost method was used. The assumptions included a 4.00% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of (2.95%) initially, 9.00% in the second year and reduced by decrements to an ultimate rate of 5.00% after 10 years. The UAL is being amortized on an open basis. The remaining amortization period at September 30, 2016 was 10 years.

NOTE 8 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts and errors and omissions. During fiscal year 2016, the District maintained liability and errors and omissions insurance through the Preferred Governmental Insurance Trust (PGIT), coverage may not extend to all situations. There were no settled claims during the past three years.

Statistical Section

This part of the District's comprehensive annual financial report represents information as a context for understanding what the information in the accompanying financial statements and notes to the basic financial statements says about the District's overall financial health.

Financial Trends:

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity:

These schedules contain information to help readers assess the factors affecting the District's ability to generate revenues.

Debt Capacity:

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to incur additional debt in the future.

Demographic and Economic Information:

These schedules offer demographic and economic indications to help the reader understand the environment within which the District's financial activities take place and to help make comparisons over time with other agencies.

Operating Information:

These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.

Sources: Unless otherwise indicated, information in these schedules is derived from the comprehensive annual financial reports for the respective years.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners
Key Largo Wastewater Treatment District
Key Largo, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of Key Largo Wastewater Treatment District, Key Largo, Florida ("District") as of and for the fiscal year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our opinion thereon dated April 26, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

April 26, 2017

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH THE
REQUIREMENTS OF SECTION 218.415, FLORIDA STATUTES, REQUIRED BY
RULE 10.556(10) OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA**

Board of Commissioners
Key Largo Wastewater Treatment District
Key Largo, Florida

We have examined Key Largo Wastewater Treatment District, Key Largo, Florida's ("District") compliance with the requirements of Section 218.415, Florida Statutes, in accordance with Rule 10.556(10) of the Auditor General of the State of Florida during the fiscal year ended September 30, 2016. Management is responsible for District's compliance with those requirements. Our responsibility is to express an opinion on District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2016.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, management, and the Board of Commissioners of Key Largo Wastewater Treatment District, Key Largo, Florida and is not intended to be and should not be used by anyone other than these specified parties.

**MANAGEMENT LETTER PURSUANT TO THE RULES OF
THE AUDITOR GENERAL FOR THE STATE OF FLORIDA**

Board of Directors
Key Largo Wastewater Treatment District
Key Largo, Florida

Report on the Financial Statements

We have audited the accompanying basic financial statements of Key Largo Wastewater Treatment District, Key Largo, Florida ("District") as of and for the fiscal year ended September 30, 2016, and have issued our report thereon dated April 26, 2017.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Florida Auditor General.

Other Reports and Schedule

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters based on an audit of the financial statements performed in accordance with *Government Auditing Standards*; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated April 26, 2017, should be considered in conjunction with this management letter.

Purpose of this Letter

The purpose of this letter is to comment on those matters required by Chapter 10.550 of the Rules of the Auditor General for the State of Florida. Accordingly, in connection with our audit of the financial statements of the District, as described in the first paragraph, we report the following:

- I. Current year findings and recommendations.**
- II. Status of prior year findings and recommendations.**
- III. Compliance with the Provisions of the Auditor General of the State of Florida.**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, as applicable, management, and the Board of Commissioners of Key Largo Wastewater Treatment District, Key Largo, Florida and is not intended to be and should not be used by anyone other than these specified parties.

We wish to thank Key Largo Wastewater Treatment District, Key Largo, Florida and the personnel associated with it, for the opportunity to be of service to them in this endeavor as well as future engagements, and the courtesies extended to us.

April 26, 2017

REPORT TO MANAGEMENT

I. CURRENT YEAR FINDINGS AND RECOMMENDATIONS

None

II. PRIOR YEAR FINDINGS AND RECOMMENDATIONS

None

III. COMPLIANCE WITH THE PROVISIONS OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Unless otherwise required to be reported in the auditor's report on compliance and internal controls, the management letter shall include, but not be limited to the following:

1. A statement as to whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

There were no significant findings and recommendations made in the preceding annual financial audit report for the fiscal year ended September 30, 2015.

2. Any recommendations to improve the local governmental entity's financial management.

There were no such matters discovered by, or that came to the attention of, the auditor, to be reported for the fiscal year ended September 30, 2016.

3. Noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance.

There were no such matters discovered by, or that came to the attention of, the auditor, to be reported, for the fiscal year ended September 30, 2016.

4. The name or official title and legal authority of the District are disclosed in the notes to the financial statements.
5. The financial report filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes agrees with the September 30, 2016 financial audit report.
6. The District has not met one or more of the financial emergency conditions described in Section 218.503(1), Florida Statutes.
7. We applied financial condition assessment procedures and no deteriorating financial conditions were noted as of September 30, 2016. It is management's responsibility to monitor financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.
