MINUTES

CALL TO ORDER (A)

Secretary/Treasurer Sue Heim called the meeting to order at 4:03 p.m.

PLEDGE OF ALLEGIANCE (B)

Commissioner Philip Schwartz led the Pledge of Allegiance.

ROLL CALL (C)

Present were: Commissioners Sue Heim, Robert Majeska, and Philip Schwartz

Present Virtually (voting): Chairman Nicolas Rodriguez and Commissioner Tim Maloney

Also present: General Manager Peter Rosasco; General Counsel Nicholas Mulick; District Clerk Shannon McCully; Field Manager Rudy Perez; Plant/Facilities Manager Ryan Dempsey; Weiler Engineering Ed Castle and Steve Suggs; IT Support Manny Santana

Appeared Virtually: Project Administration and HR Coordinator Laura Weinstock; IT Consultant Randy Redmond

AGENDA ADDITIONS, CORRECTIONS, OR DELETIONS (D)

Approval of Agenda (E-1)

Mr. Rosasco requested the addition of items *G-2 ACOE Update, G-3 December 3, 2024, meeting update, and M-2 KLWTD Vacuum Station Odor Control Project*
Commissioner Heim requested the addition of item *P-1 Brief Update on WQPP Meeting on 11/12*

Motion: Commissioner Majeska made a motion to approve the agenda as amended. Commissioner Schwartz seconded the motion. Motion passed without objection.

PUBLIC COMMENT (E)

No speakers.

APPROVAL OF MINUTES (F)

Minutes of November 5, 2024 (G-1)

Motion: Commissioner Majeska made a motion to approve the minutes of November 5, 2024. Commissioner Schwartz seconded the motion. Motion passed without objection.

GENERAL MANAGER (G)

Amendment Request for Raftelis Rate Study (G-1)

Mr. Rosasco requested approval of Raftelis Rate Study Amended Cost Estimate.

Motion: Commissioner Majeska made a motion to approve the request for \$12,000.
Commissioner Maloney seconded the motion.

Vote on Motion:

Commissioner Majeska – Aye
Commissioner Maloney – Aye
Commissioner Schwartz – Aye
Commissioner Heim – Aye
Chairman Rodriguez – Aye

ACOE Update (G-2) (Laydown)

Mr. Rosasco discussed the Army Corp of Engineering presentation in Marathon on November 14, 2024.

December 3, 2024, Board Meeting Update (G-3)

Mr. Rosasco discussed cancelling the December 3, 2024, Board Meeting and scheduling KLWTD's Rules and Regulations workshop for December 10, 2024, at 3:00 PM.

Motion: Commissioner Maloney made a motion to approve the request.
Commissioner Majeska seconded the motion.

Vote on Motion:

Commissioner Maloney – Aye
Commissioner Majeska – Aye
Commissioner Schwartz – Aye
Commissioner Heim – Aye
Chairman Rodriguez – Aye

CUSTOMER SERVICE (H)

Customer Service Report – October 2024 (H-1)

Ms. Fazio presented the Customer Service monthly report.

IT (I)

IT Report – October 2024 (I-1)

Mr. Santana presented the IT monthly report.

BUDGET AND FINANCE (J)

Budget and Finance Report – October 2024 (J-1)

Ms. Fazio presented the Budget and Finance monthly report.

FIELD (K)

Field Report – October 2024 (K-1)

Mr. Perez presented the Field monthly report

Vacuum Pump Re-Build (K-2)

Mr. Perez requested approval of KB Vacuum Pump Solutions, LLC proposal.

Motion: Commissioner Maloney made a motion to approve the request.

Commissioner Majeska seconded the motion.

Vote on Motion:

**Commissioner Maloney – Aye
Commissioner Majeska – Aye
Commissioner Schwartz – Aye
Commissioner Heim – Aye
Chairman Rodriguez – Aye**

PLANT/FACILITIES (L)

No report in agenda.

CAPITAL PROJECTS (M)

Capital Projects Report – October 2024 (M-1)

Mr. Suggs presented the Capital Projects monthly report.

KLWTD Vacuum Station Odor Control Project (M-2) (Laydown)

Mr. Suggs requested approval to publish solicitation for KLWTD Vacuum Station Odor Control Project.

**Motion: Commissioner Majeska made a motion to approve the request.
Commissioner Schwartz seconded the motion.**

Vote on Motion:

**Commissioner Majeska – Aye
Commissioner Schwartz – Aye
Commissioner Maloney – Aye
Commissioner Heim – Aye**

ENGINEERING (N)

Amendment of WEC Capital Projects Work Authorizations WA 24-01 (N-1)

Mr. Castle requested approval of Amendment to Weiler Work Authorization 24-01.

**Motion: Commissioner Schwartz made a motion to approve the request.
Commissioner Maloney seconded the motion.**

Vote on Motion:

**Commissioner Schwartz – Aye
Commissioner Maloney – Aye
Commissioner Majeska – Aye
Commissioner Heim – Aye**

Amendment of WEC Capital Projects Work Authorization 24-02 (N-2)

Mr. Castle requested approval of Amendment to Weiler Work Authorization 24-02.

**Motion: Commissioner Maloney made a motion to approve the request.
Commissioner Schwartz seconded the motion.**

Vote on Motion:

Commissioner Maloney – Aye
Commissioner Schwartz – Aye
Commissioner Majeska – Aye
Commissioner Heim – Aye

LEGAL REPORT (O)

Resolution 23-2024 11395 Property LLC - 301 Buttonwood Cir, AK No. 1621307 (O-1)
Mr. Mulick requested adoption of Resolution 23-2024.

Motion: **Commissioner Majeska made a motion to adopt Resolution 23-2024.**
 Commissioner Schwartz seconded the motion.

Vote on Motion:

Commissioner Majeska – Aye
Commissioner Schwartz – Aye
Commissioner Heim – Aye
Chairman Maloney – Aye

COMMISSIONER ITEMS (P)

Brief Update on WQPP Meeting on 11/12 (P-1)
Commissioner Heim reported on the WQPP Steering Committee Meeting on November 12, 2024.

ROUNDTABLE DISCUSSION (Q)

No report in agenda.

ADJOURNMENT (R)

The meeting was adjourned at 6:25 p.m.

Nicolas Rodriquez, Chairman

LOCATION

The program consists of environmental infrastructure projects within Monroe County to improve the water quality of the Florida Keys National Marine Sanctuary – the world's largest marine protected area. The Sanctuary includes 2,800 square nautical miles of nearshore waters extending from south of Miami, Florida to the Dry Tortugas. Within the Florida Keys the spectacular, unique, and nationally significant marine environments, including seagrass meadows, mangrove islands, and extensive living coral reefs

LOCATION

Figure I-1 Location of FKWOIP Study Area

US Army Corps
of Engineers®

U.S. ARMY

PROGRAM PURPOSE

The primary objective is to improve the quality of nearshore waters within the Florida Keys National Marine Sanctuary, the nation's largest marine protected area, by implementing projects within the wastewater and stormwater management plans prepared for Monroe County and various municipalities within Monroe County.

PROGRAM OBJECTIVE

Laydown November 19, 2024
Agenda Item G-2

- To provide an equitable, ecologically sound, and economical implementation strategy for managing wastewater and stormwater to improve water quality in the Sanctuary.

PROGRAM GOAL

- To provide responsive, flexible, and cost-effective solutions that improve wastewater and stormwater management practices throughout the Kalamazoo region and satisfy the existing and future needs of the community.
- To address affordability issues and satisfy all applicable environmental regulatory criteria.

US Army Corps
of Engineers®

AUTHORIZATION: PUBLIC LAW 106-554, SECTION

As amended by Section 8376 of the WRDA of 2022 (Public Law 117-263)

The U.S. Army Corps of Engineers (USACE) has been authorized to provide technical and financial assistance to carry out projects for the planning, design, and construction of treatment projects to improve water quality in the Florida Keys National Marine Sanctuary. The Corps has been authorized to expend up to **\$200 million** for this effort.

AUTHORIZATION (CNTD.)

Water Resources Development Act (WRDA) 2022

- The Congress authorized up to **\$200 million** (representing 65% of 1 costs).
- The Non-Federal interests will be responsible for 35% of the total p1 cost. Approximately **\$107.7 million**.

RESPONSIBILITIES – USACE

USACE will provide financial and technical assistance.

- Federal financial assistance will be in the form of reimbursement, to Non-Federal sponsor.
- Provide oversight activities, completion of necessary environmental documentation, coordination, and execution of agreements.

RESPONSIBILITIES - NON-FEDERAL SPONSOR

- Responsible for the planning, design, and construction work of the Sector projects.
- Responsible for all Lands, Easements, Rights of Way, Relocations and Disutilities (LERRD).
- Responsible for obtaining all necessary permits.
- 100% of the Operation, Maintenance, Repair, Replacement and Rehabilitation (OMRR&R)
- Must complete a financial plan identifying sources of non-Federal funding

REQUIREMENTS – NON-FEDERAL SPC

Comply with the following:

- Applicable growth management ordinances of Monroe County, Florida;
- Applicable agreements between Monroe County, Florida, and the State of Florida to manage growth in Monroe County, Florida; and
- Applicable water quality standards; and
- Ensure the project is consistent with the master wastewater and stormwater plans for Monroe County, Florida.

USE OF FUNDS

- Funding for USAGE program management activities will be within available Federal appropriations for the Section 109 program and , allocated to specific projects and shared in accordance with the tel the agreement for such project.
- The Government will process reimbursement payments based on i submitted by the Non-Federal sponsor in accordance with the proU of the Section 109 agreement.

CURRENT PROGRAM STATUS

- Currently, \$86M from the initial \$1 QOM authorization has been reimbursed back to the municipalities.
- By FY26, 100 % of the remaining \$1 QOM balance is projected to be reimbursed.

Municipality	Total Allocation	Referred
Key Colony Beach	\$ 200,000.00	(\$ 11)
Layton	\$ 800,000.00	\$ 11
Key West	\$ 10,320,000.00	\$ 11

RESTRICTIONS

- Grants - Does not apply to the Keys legislation
- No reimbursement funding for any construction work done prior to executed agreement.
- Design costs prior to an executed agreement can be reimbursed
- Comprehensive Environmental Response, Compensation, and Lia Act (CERCLA) not eligible for Federal Assistance

US Army Corps
of Engineers®

DETERMINING EFFORTS FOR THE ADD

- **Moving Forward Together**
 - Collaborative effort required to streamline funding distribution.
 - Early prioritization helps ensure timely review and processing.
- **Overall Package Preparation**
 - County and each city must prepare and submit an overall package for eligibility.
 - Clearly outline proposed projects, including priorities within each package.
- **Local Prioritization and Funding Distribution after validating eligibility**
 - Determine internally which projects will receive funding priority.
 - Finalize funding distribution decisions at the local level before submission.
- **Submission Requirements**
 - Project name, description, location, purpose align with the authority, need, background, cost schedule, funding source, community impact, etc.

US Army Corps
of Engineers®

ACTION PLAN

- Updating the Master Plan and PMP based on available informatio
- Coordination Meetings
- Overall Package Template needed?

MEMO

To: KLWTD Commissioners
From: Steve Suggs, PE – Weiler Engineering
Date: November 19th, 2024
Re: KLWTD Vacuum Station Odor Control Project

Project Overview:

Vacuum Station A, the existing odor control system and generator will be demolished, followed by the installation of a proposed new odor control system and generator, along with the construction of walls to enclose the new systems. This work will require extending the property line to accommodate the improvements. At Vacuum Station D, the existing generator and odor control system will be demolished, and a new concrete slab will be installed to support the proposed new generator and odor control system, which will not be enclosed. Additionally, the project includes an add alternative to extend similar upgrades to four more vacuum stations: E, G, I, and J/K, further enhancing the overall odor control infrastructure.

Project Benefits:

The proposed Vacuum Station Odor Control project offers significant benefits in enhancing operational efficiency and community satisfaction. By implementing a dual carbon filter system, the project extends the lifespan of odor control systems, reducing the frequency of filter media replacement and associated maintenance costs. This innovative design enhances cost-effectiveness and operational reliability. Additionally, the project enables earlier detection of odor control issues, ensuring timely interventions to maintain air quality standards. This proactive approach minimizes potential disruptions and reinforces the vacuum station’s commitment to environmental stewardship and community well-being.

Estimated Cost and Funding:

The estimated cost of the project is \$2,339,280.00 base bid and \$3,939,280.00 with the inclusion of add alternates. This project has the potential to be grant-funded. Currently budgeted is \$987,500.00 for FY25.

KLWTD Vac Station Odor Control Cost Estimate				
Description	Units	Qty	Unit Cost	Total Cost
Mobilization	LS	1	\$108,300.00	\$108,300.00
Bonds & Insurance	LS	1	\$64,980.00	\$64,980.00

Employee Recognitions 2024

The District would like to recognize the following employees for their achievements in 2024.

Plant Department:

- Adam Baptiste became an A License operator in March.
- Will Cunningham passed his B License operator exam in October.

Field Operations:

- Rudy Perez was promoted to Field Operations Manager in June.
- Danny MacShane was promoted to System Area Supervisor in June.
- Jeremy Sands was promoted to a Sr. Lead System Technician in June.
- Michael Reiss was promoted to a Lead System Technician in July.
- Andy Marquez was promoted to a Lead System Technician in October.
- Brandon Curll was promoted to Inspections Supervisor & GIS Administrator in July.
- Koty Hunt moved into the open Construction Inspector position in September.

TECHNICAL MEMORANDUM

To: Connie Fazio
CC: Peter Rosasco
From: Thierry Boveri, Trevor McCarthy, and Tristen Townsend
Date: December 6, 2024
Subject: Fiscal Year 2024 Wastewater Rate Study

Dear Ms. Fazio:

Raftelis Financial Consultants, Inc. (Raftelis) has completed our review of the wastewater rates for the Key Largo Wastewater Treatment District (the "District") and have summarized our assumptions, conclusions, and recommendations in this technical memorandum. The purpose of this analysis is to update the financial forecast completed during the 2022 rate study, assess the District's current financial position, and determine the sufficiency of the existing wastewater rates. The primary objective of the analysis is to recommend rate adjustments that equitably recover the costs of operations while maintaining financial sustainability and a strong fiscal position. The financial forecast includes fiscal year 2025 through fiscal year 2034 (Forecast Period). While we believe the assumptions relied upon herein are reasonable for the purpose of this report, they are dependent upon future events and actual conditions may differ. The District should carefully monitor utility system revenues and financial operating results and make necessary adjustments as the situation may dictate. The results and recommendations outlined in this memorandum were presented to the District Board of Commissioners (the "Board") on October 15, 2024.

BACKGROUND

In 2022, Raftelis completed a wastewater rate study for the District. The purpose of this study was to prepare a financial forecast (2022 through 2032), identify the sufficiency of existing retail rates, and provide rate recommendations. During the study, Raftelis found that retail rates were producing a surplus. Based on input from staff and in order to provide a benefit to retail customers, rates that recover only operating expenses were recommended, with the assumption that grants would fully cover capital costs. Therefore, the Board adopted a 5% rate reduction in retail rates effective October 1, 2022, with rate indexing (assumed at 3.5% annually) required by fiscal year 2025 to keep pace with inflation in operating costs.

Compared to the 2022 study, several key changes in the financial forecast were recognized. Fiscal year 2025 projected retail rate revenues are approximately 2% lower than previously forecasted, while budgeted operating expenses were approximately 5% greater than the prior forecast. New regulatory requirements will also put increased pressure on operating expenses. Furthermore, the District's capital needs have nearly doubled since the prior study and greater reliance on *pay-as-you-go* funding is anticipated.

(Remainder of Page Intentionally Left Blank)

REVENUES

1. Projected revenues from existing rates are based on the schedule of wastewater rates and charges reflected in the currently adopted rate resolution. The existing rates are applied to the fiscal year 2023 billing statistics to calculate the projected rate revenues for the Forecast Period, as shown in Table 1. Based on historical trends and discussions with District staff, an average annual growth rate in equivalent dwelling units (EDUs) of approximately 0.5% is assumed for the Forecast Period. Based on these growth assumptions, retail revenues at existing rates, prior to the application of the proposed rate adjustments, are estimated to increase from approximately \$7.6 million to \$7.7 million over the Forecast Period.

Like most Florida utilities, the District charges each wastewater customer a monthly base charge and a volumetric charge based upon the customer's metered water consumption. Approximately 64% of retail rate revenues are from monthly base charges. Due to the high seasonality in the region, a strong level of fixed cost recovery provides the District with more stable and predictable monthly revenues.

2. The District entered into an interlocal agreement with Islamorada, Village of Islands (Islamorada) for wastewater services in May 2012. Under this agreement, the District would provide wastewater treatment and disposal services to Islamorada at a fee of \$4.65 per thousand gallons. An analysis of the contract treatment rate was not performed during this study and the rate was assumed to remain unchanged during the Forecast Period. Based on historical and current billing statistics, total revenues from Islamorada are estimated at approximately \$1.35 million annually over the Forecast Period.
3. The District entered into an interlocal agreement with Monroe County in fiscal year 2016. The agreement stated certain State of Florida Department of Environmental Protection (FDEP) grant funds received by the District would be exchanged with Monroe County, with future grant funds received by the District also eligible. Monroe County would then pay these grant fund amounts back to the District over time. The first grant amount exchanged was \$17 million to be paid back to the District over ten years. The second grant amount exchanged was \$1.25 million to be paid back over twelve years. Based on discussions with District staff and the current repayment schedule, the payment amounts from Monroe County are assumed to be \$2.125 million annually through fiscal year 2025 and \$125,000 annually through fiscal year 2028.
4. The District anticipates receipt of grant funding from the Army Corp of Engineers (ACOE) Florida Keys Water Quality Improvement Program, Florida Department Environmental Protection (FDEP) Stewardship Program, and other entities. For the purposes of this analysis, a total of \$70 million in grant revenues from these sources is assumed during the Forecast Period. Grant funding represents approximately 73.8% of funding for capital projects during the Forecast Period.
5. Beginning in 2005, the District imposed a System Development Charge (assessment) on all parcels within its service area for access to the central wastewater system. Parcel owners could pay the assessment in full or pay installments over a 20-year period. Assessment revenues from annual installment payments are expected to cease in 2036, assuming no additional assessment programs take place. The assessment revenues are projected at approximately \$3.4 million in fiscal year 2025 and decline to approximately \$30,000 in the final year of the Forecast Period, as shown in Table 2. These revenues are assumed to be utilized for the District's annual debt service payments and toward the funding of capital improvement projects.
6. Other miscellaneous revenue (shown in Table 3) and interest income on cash balances (shown in Table 5) were also recognized and average approximately \$700,000 per year.

EXPENDITURES AND DEBT SERVICE REQUIREMENTS

7. The preliminary fiscal year 2025 operating budget served as the basis for the expenditure projections for the Forecast Period, as shown in Table 4. Projected operating and maintenance expenses are escalated by an annual average rate of approximately 4.0% per from fiscal year 2025 budgetary levels. The overall increases in projected operating expenses are based on the nature of the recurring expense including, but not limited to, the following:
 - a. Labor: 3.0% per year;
 - b. Health and General Insurance: 5.0% per year;
 - c. Power and Chemicals: 5.0% per year;
 - d. Repairs and Maintenance: 4.0% per year; and
 - e. General Inflation / Consumer Price Index: Average of approximately 2.5% per year based on data published by the Congressional Budget Office in May 2024.

Beginning in fiscal year 2026, the District will incur an estimated \$300,000 in additional annual expenditures associated with new regulatory requirements for the collection system action plan implementation.

8. The Capital Improvement Program (CIP) utilized in this analysis, shown in detail in Table 5, is based on the preliminary fiscal year 2025 budget and information from the District's consulting engineer. The CIP includes approximately \$95.7 million in total future capital investments. Major projects include the Collection System Sea Level Rise Elevation project, Effluent Filtration Upgrades, Vacuum System Monitoring, EQ Tank Headworks, and other improvements, renewals, and replacements. The financial forecast assumes the anticipated CIP will be funded through a combination of grant revenues and internal resources, such as existing cash reserves, R&R deposits, and rate revenues.
9. The District's only outstanding loan is the 2005 SRF Loan WW46401P which matures in fiscal year 2029. Annual installment payments from the assessment programs cover nearly all remaining annual debt service requirements with the exception of the final payment in fiscal year 2029 assumed to be partially funded from rates. No additional debt was assumed during the Forecast Period.

CASH RESERVES AND RENEWAL & REPLACEMENT TRANSFERS

10. Unrestricted cash balances as of September 30, 2024, were estimated at approximately \$25.7 million based on projected operating results provided by District staff. Based on discussions with District staff, a minimum cash reserve target of 120 days of operating expenses plus two years of depreciation was targeted for the purpose of this analysis. The projected balances for the Forecast Period are shown in Table 6. The District is anticipated to approximately meet this target by 2034 assuming the proposed rate increases are implemented.
11. Typically, an important revenue requirement to consider are the annual rate revenues available to fund capital investments, often referred to as *pay-as-you-go* funding. In the prior study, as the majority of the CIP was grant funded, rates were set to only recover operating expenses. However, with the overall capital needs of the District increasing and expectations of future grant proceeds becoming less available, an increased reliance on pay-as-you-go funding will be necessary. On average, the annual pay-as-you-go funding generated in the forecast is approximately \$828,000 per year or 8% of annual retail rate revenues assuming the proposed rate increases are implemented.

PROPOSED RATE SCENARIOS

During the study, District staff directed Raftelis to evaluate the effect on rates of removing the residential sewer billing cap, which is currently set at 12,000 gallons per month per residential unit. Sewer billing caps are often put in place to recognize that excess residential flows, beyond what is considered essential indoor use, are not entering the wastewater system (likely due to activities such as irrigation, car-washing, filling swimming pools etc.,) Therefore, a utility may put in place sewer cap which represents the estimated threshold where usage above that level is likely outdoor usage. However, customer attributes and usage patterns vary among communities so the establishment and level at which a billing cap is set is a community specific policy decision.

An analysis of customer data from fiscal year 2023 showed that removal of the residential sewer billing cap would generate approximately \$200,000 per year in additional revenues. To generate approximately the same revenues identified under the existing billing cap policy (the “Base Case”), the average monthly bill could be reduced by a cumulative \$1.25 per month by fiscal year 2029 if the sewer billing cap was removed as shown below and on Table 8.

Description	Existing	2025	2026	2027	2028	2029
Maintain Billing Cap (Base Case)						
Bill at 4,000 Gallons	\$44.17	\$47.67	\$51.17	\$54.67	\$58.17	\$61.67
Monthly Change (\$)	N/A	\$3.50	\$3.50	\$3.50	\$3.50	\$3.50
Remove Billing Cap						
Bill at 4,000 Gallons	\$44.17	\$47.42	\$50.67	\$53.92	\$57.17	\$60.42
Monthly Change (\$)	N/A	\$3.25	\$3.25	\$3.25	\$3.25	\$3.25

The Base Case rate increases result in an average annual increase in revenues of 6.9% per year through fiscal year 2029. Removing the billing cap would result in an immediate increase of about \$200,000 per year in revenue, and therefore the average annual increase in revenues would be only 6.5% through fiscal year 2029. Under either scenario above, average annual increases of 3.1% per year are projected for fiscal years 2030 through 2034.

ALTERNATIVE RATE SCENARIOS

Following the October 15, 2025 board meeting, the District requested a second set of scenarios (the “Alternative Scenarios”) be developed assuming uniform bill increases over a ten-year period. The table below presents the alternative scenarios.

Description	Existing	2025	2026	2027	2028	2029
Maintain Billing Cap						
Bill at 4,000 Gallons	\$44.17	\$47.17	\$50.17	\$53.17	\$56.17	\$59.17
Monthly Change (\$)	N/A	\$3.00	\$3.00	\$3.00	\$3.00	\$3.00
Remove Billing Cap						
Bill at 4,000 Gallons	\$44.17	\$46.92	\$49.67	\$52.42	\$55.17	\$57.92
Monthly Change (\$)	N/A	\$2.75	\$2.75	\$2.75	\$2.75	\$2.75

The Alternative Scenarios result in lower average annual customer bills over the first five years compared with the proposed rate scenarios. However, the Alternative Scenarios result in higher rates by year ten

(2034). Additionally, the Alternative Scenarios result in lower cash balances throughout the forecast period and approximately \$2 million less cash in reserves by 2034. With the exception of fiscal year 2028, the alternative scenarios do maintain cash reserves of at least 365 days of operating expenses.

It should be noted that the tables and financial projections mentioned outside of this section of the report, including the appended tables, assume implementation of the proposed rate scenarios, not the Alternative Scenarios presented in this section.

CONCLUSIONS AND RECOMMENDATIONS

Based on the assumptions, considerations, and analyses as summarized herein, the District’s existing rates are not expected to recover the projected revenue requirements during the Forecast Period. The primary drivers of the recommended rate adjustments are due to increases in operating and maintenance expenses due to the effects of inflation and new regulatory requirements. Furthermore, an increased reliance on *pay-as-you-go* funding will be required to fully fund capital improvement plan as the availability of grant revenues diminishes while maintaining adequate levels of cash reserves for working capital and unforeseen expenditures.

Therefore, it is recommended that the District adopt one of the five-year rate plans as detailed below and review the revenue sufficiency forecast in three to five years, or as any significant changes occur.

Description	Existing	2025 [1]	2026	2027	2028	2029
Proposed Rate Scenarios:						
Maintain Billing Cap						
Monthly Base Rate per EDU	\$27.13	\$29.27	\$31.41	\$33.55	\$35.69	\$37.83

Key Largo Wastewater Treatment District, Florida
2024 Revenue Sufficiency Study

MEMO

To: Ms. Connie Fazio, Finance Director
Key Largo Wastewater Treatment District

From: Mr. Trevor McCarthy, Senior Consultant
Raftelis Financial Consultants, Inc.

Date: December 6, 2024

Re: Commissioner Questions from Raftelis Presentation on October, 15 2024

FIXED VERSUS VARIABLE COST RECOVERY

Total retail base charge revenues were \$4,752,133 for calendar year 2023 compared with \$2,100,690 in volumetric charges. Base charge revenue makes up 63.8% of total retail revenues; this ratio is known as *fixed cost recovery*. The greater a utility's fixed cost recovery, the more stable and predictable are monthly revenues. Where seasonality, rain fall, and changes in customer habits affect potable water use, which in turn effects billed wastewater flows, the number of customers served by a utility typically changes in a gradual, more predictable manner. Another factor in the use of a base charge is equitability among rate payers. Base charges are often referred to as *readiness to serve charges*. The concept of readiness to serve recognizes that even if a customer returned no wastewater to the system for a period of time, there is a fixed cost associated with maintaining that customers capacity. In other words, the utility must be ready to serve that customer whenever they choose to initiate use of the system.

BILLED VERSUS TREATED FLOWS

In fiscal year 2023, the District's wastewater plant treated approximately 729,085,000 gallons of water, or an average of 1.997 million gallons per day. As with most utilities, District customers are billed for wastewater based upon their metered water consumption in addition to a monthly base charge. For residential customers, volumetric charges are capped at a maximum of 12,000 gallons per equivalent residential connection. Total revenue gallons for which volumetric charges were applied in fiscal year 2023 were approximately 911,116,000 gallons which is nearly 25% greater that the District's treated flows.

A variance between billed and treated flows is expected, since metered water flows only represent a proxy for wastewater returned to the system. All else equal, if the District could bill only for treated wastewater flows, the rate charged for each 1,000 gallons would need to be approximately 25% greater to recover the cost of operations.

(remainder of page intentionally left blank)

WASTEWATER TREATMENT COST PER 1,000 GALLONS

Determining the average cost to treat 1,000 gallons of wastewater requires the functionalization of operating costs. Based on discussions with staff, an estimate of treatment related operating expenses was identified based on each budgetary department's relation to wastewater treatment.

Description	Allocation	Amount
Administration	50%	\$1,239,254
Plant	100%	\$3,442,382
Field	0%	\$---
Facilities	50%	\$439,596
Total		\$5,121,232
Treated Flows (000s of gallons)		729,085
Cost per 1,000 Gallons		\$7.02

The costs associated with operating a wastewater utility are generally 75% to 85% fixed, which in turn means that incremental changes in treated flows have a minimal effect on the overall cost of providing service.

Key Largo

Wastewater Treatment District

2024 Wastewater Rate Study

Presented on December 17, 2024

Recap

- Raftelis performed a rate study in 2019 and 2022
 - > 2019 Study resulted in adoption of a 15% reduction
 - > 2022 Study resulted in an of an additional 5% reduction
 - Need for increases by FY25 identified
- 3 primary changes since last update:
 - > Projected retail rate revenues approximately 2% lower
 - > Projected FY25 operating expenses are 5% higher plus District staff indicate the need for \$300,000/yr in additional O&M cost beginning in FY26 for Collection System Action Plan
 - > Capital improvement plan has increased while the availability of future grant funding may decline

Recap (continued)

- Rate increases identified in order to:
 - › Keep pace with inflation in operating expenses
 - FY25 budgeted O&M of \$9.7 million while retail/wholesale rate revenues projected at \$8.9 million (9% deficiency)
 - O&M estimated to increase 4% annually
 - › Maintain cash adequate cash reserves
 - Minimum cash reserve target of 120 days of O&M plus 2 years of depreciation (≈\$13m in FY25)
 - › Provide pay-as-you-go funding for capital projects
 - › Maintain compliance with the rate covenant related to the outstanding SRF loan

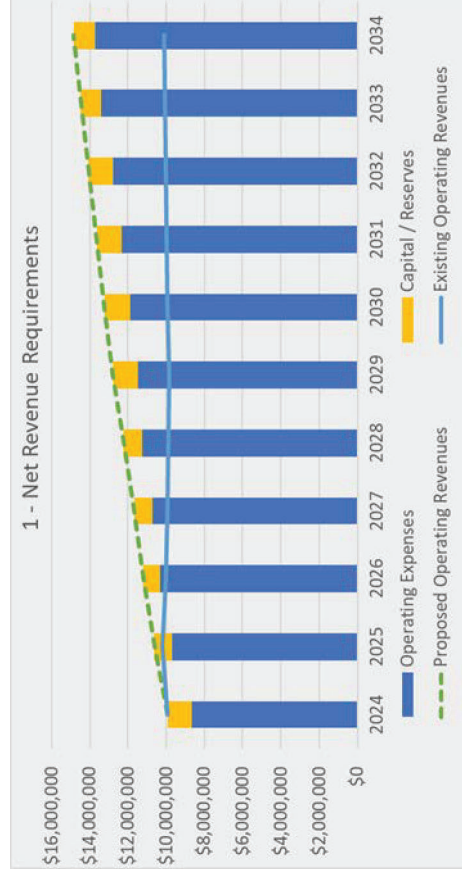

Proposed Rate Adjustments

Proposed Increases – Maintain Residential Sewer Cap

	Exist.	FY25	FY26	FY27*	FY28	FY29	FY30	FY31	FY32	FY33	FY34
Bill at 4,000 gallons	\$44.17	\$47.67	\$51.17	\$54.67	\$58.17	\$61.67	\$63.67	\$65.67	\$67.67	\$69.67	\$71.67
\$ Change	N/A	\$3.50	\$3.50	\$3.50	\$3.50	\$3.50	\$2.00	\$2.00	\$2.00	\$2.00	\$2.00

Proposed Increases – Remove Residential Sewer Cap

No Cap	Exist.	FY25	FY26	FY27*	FY28	FY29	FY30	FY31	FY32	FY33	FY34
Bill at 4,000 gallons	\$44.17	\$47.42	\$50.67	\$53.92	\$57.17	\$60.42	\$62.42	\$64.42	\$66.42	\$68.42	\$70.42
\$ Change	N/A	\$3.25	\$3.25	\$3.25	\$3.25	\$3.25	\$2.00	\$2.00	\$2.00	\$2.00	\$2.00

Rate Comparison

Comparison of Current and Prior Rate Recommendations

- Neighboring utility average assumed to increase by 2.5% per year.

Alternative Rate Adjustments

Alternative Rate Increases – Maintain Residential Sewer Cap

	Exist.	FY25	FY26	FY27	FY28*	FY29	FY30	FY31	FY32	FY33	FY34
Bill at 4,000 gallons	\$44.17	\$47.17	\$50.17	\$53.17	\$56.17	\$59.17	\$62.17	\$65.17	\$68.17	\$71.17	\$74.17
\$ Change	N/A	\$3.00	\$3.00	\$3.00	\$3.00	\$3.00	\$3.00	\$3.00	\$3.00	\$3.00	\$3.00

Alternative Rate Increases – Remove Residential Sewer Cap

No Cap	Exist.	FY25	FY26	FY27	FY28*	FY29	FY30	FY31	FY32	FY33	FY34
Bill at 4,000 gallons	\$44.17	\$46.92	\$49.67	\$52.42	\$55.17	\$57.92	\$60.67	\$63.42	\$66.17	\$68.92	\$71.67
\$ Change	N/A	\$2.75	\$2.75	\$2.75	\$2.75	\$2.75	\$2.75	\$2.75	\$2.75	\$2.75	\$2.75

Pros

- Lower rate increases in first 5 years compared with initial proposed rate path
- Rates not back to pre-rate decrease level until FY28

Cons

- Results in higher bill by the end of 10-yr forecast
- 30 days short of 120 days of O&M target at end of forecast
- Higher risk in short term

Summary of Rate Path Options

- The Proposed Rate Adjustments result in:
 - › Higher increases in the near-term (first 5 years)
 - › Lower average annual bill by year 10
 - › Higher cash reserve balances
 - › Less Risk
- The Alternate Rate Adjustments result in:
 - › Lower increases in the near-term
 - › Higher average annual bill by year 10
 - › Lower cash reserves but still above 365 days of O&M (except in FY28)
- Keep or eliminate 10,000 gallon cap on residential volumetric charge

FAQS

Comparison of Projected Cash Balances

Proposed Rate Options

- Projected balance of \$18.9 million by FY34

Alternative Rate Options

- Projected balance of \$16.9 million by FY34

Past Training

1. Reviewing the folder Structure from the shared drive.
 - a. _Training Documents
 - b. Asbuilts
 - c. Data
 - d. Georeference
 - e. Maps
 - f. Project
 - g. Table
2. Pro Map Overview
 - a. Reviewing the tabs in the ribbon.
 - b. Reviewing the difference between saving the map vs the layers.

- c. Reviewing Content pane
 - i. Turning layers on and off
 - ii. Opening Attribute Table
 - iii. Layer property
 - iv. Seeing the data sources
 - v. Turning on and off layers selecting
 - vi. Turning on and off layers editing
- d. Reviewing Catalog
 - i. Locating share drive
 - ii. Portal to the online
- e. Advise map setup – Popups ready to use.
 - i. Catalog Pane
 - ii. Attribute Pane
 - iii. Create Feature
 - iv. Modify Feature
 - v. Locate Add
- 3. Learn how to add and edit points.
 - a. Worked on the map updated points
 - b. Added points
 - c. Modify vertices of a line
 - d. Edited attribute table
- 4. Georeferenced PFD – (Ongoing)
 - a. Learning the tools
 - i. Move
 - ii. Scale
 - iii. Rotate
 - iv. Add transparent (If needed)
 - b. Used the parcels as guide
 - i. How to add and subtract control points.
 - ii. Learn how to strategically add control points.
- 5. Adding visualization to the AGOL pro map
 - a. To help with overwriting layers seamlessly.
- 6. Overwriting Layers
- 7. Copying symbology from another layer.

Upcoming Training

1. Viewing CAD on Pro Map

Key Largo Wastewater Treatment District Board of Commissioners Meeting Agenda Item Summary

Meeting Date:
December 17, 2024

Agenda Item Number: K-1

Action Required:
No

Department:
Field Operations

Sponsor:
Rudy Perez

Subject:
Field Report - November 2024

Summary:
Mr. Perez will present the Field monthly report.

Reviewed / Approved

Financial Impact

1. Monthly Report

Approved By: 
General Manager

Date: 12/11/2024

Wastewater Field Operations

There was a total of 38 service calls for the month of November of these 21 were system-generated alarms, mostly by low vacuum detection at a vacuum station. The system-generated alarms were addressed quickly by the field staff 12 of those system generated were found using the Flo vac monitoring. The reports below detail the remaining 17 calls.

Date	Address	Incident	Response	KLWTD Issue
11/2/24	42 Waterways Dr	A customer called in to report their toilets weren't flushing properly. And gurgling sounds coming from the sink.	On arrival tech found that there was a lack of vacuum at the pit. While trouble shooting it was determined that the duckbill was clogged. Once blockage was removed pit discharged on its own and cleared sump.	Yes
11/4/24	102250 Overseas Hwy	Customer called to report a backup.	Once tech was on site he spoke to the restaurants manager. Business is on a private lift station with two pumps. Only one pump was operational, the second pump was on the off position. The pipe intake was not under water looking like issue was in the building. Customer notified.	No
11/6/24	Lot 72 Calusa	Customer called to report a backup.	Tech found the pit to be unresponsive. The pit was diagnosed with a bad valve; controller was changed as well due to water found in both components. The pit was simulated and put back into service.	Yes
11/8/24	329 Windley Rd	The homeowner called to report an odor coming from the air terminal and that there was moisture around it.	On arrival it was noticed that the controller had come of its mount. Causing it not to function. Once controller was placed properly, pit discharged on its own and simulated.	Yes

11/10/24	158 S Ocean Shores Dr	Customer called and reported his house was backing up.	Tech found everything to be working as it should. Observed cleanout, no issues found. Issue on homeowner side. (Homeowner issue).	No
11/10/24	24 Rose Pl	Customer called stating they were experiencing a backup.	The tech arrived on site found that pit was working as should. There were no signs of any backup inside cleanout. Issue on homeowner side. (Homeowner notified).	No
11/11/24	146 N Sunrise Dr	Someone called the office stating that there was sewer on the road at the address given.	Once techs were on site, they could not find any issue regarding sewer on the road. They walked and observed every pit and found no detection of sewer. The pit and cleanout were checked at 146 N sunrise and found everything working accordingly.	No
11/14/24	155 Peace Ave	The homeowner called to inform us of a possible backup.	Once on site at address, the pit was functioning properly and the clean out was found clear. No signs of any backup. (Homeowner issue). Homeowner notified.	No
11/17/24	92431 Oversea Hwy	Received a call from the alarm company. Regarding an alarm at a property.	On arrival found that the Fire department was on site. And my Manager showed up as well. It was determined that the exhaust filter and hose had come off. Creating smoke within the building. Help was received and all components were put back in place pump was now back in service.	Yes
11/17/24	586 Bonito Ave	Customer called to report a possible backup on our side.	On the tech's arrival, pit was found overwhelmed. They tried too manually discharge pit but were unsuccessful. Tech's found pit to have a bad valve. Once components were changed pit was back in service.	Yes

11/18/24	102250 Oversea Hwy	Customer called stating that there was a back up at Alfredos Cook House.	Once on site they found both breakers to be in the off position. Plumber was out working on pumps and left them off. Apparently pump #2 had a missing oaring in clip. causing sewer to just circulate with in the sump.	No
11/20/24	65 Waterway Dr	The Customer called to report the bathroom was draining slow.	Tech found everything to be working as it should. Cleanout and pit were checked and found no sign of a backup. The homeowner was notified. (Homeowner Issue)	No
11/25/24	Lot #451 Calusa	Customer called in and stated he was experiencing back up issues.	On tech's arrival they tried to open cleanout but saw that it was under pressure. They were able to manually discharge pit to draw down sump. Once sewer was cleared they diagnosed issue to be a clogged sensor tube. Pit was simulated and put back in service.	Yes
11/25/24	125 Valois Blvd	The Customer called regarding their grinder pump alarm was going off.	Once on-site tech diagnosed that the stator on the pump had failed. The pump was changed out and was put back into service.	Yes
11/26/24	105675 Overseas Hwy	A contractor working at the property called to report a grinder pump alarm going off.	On techs arrival they found that the pump was unresponsive. After trouble shooting the issue, it was found that the tray cable was bad. The cable was replaced. Pump was now back in service.	Yes
11/30/24	811 Oceana Ave	The Customer called stating they were having difficulty flushing their toilets.	Techs arrived and found everything working as they should. Cleanout was found dry and pit simulating on its own. The homeowner was notified. (Homeowner issue)	No

11/30/24	525 Sound Dr	Customer called to report an odor and water around the manhole.	Field tech detected no odor coming from the air terminal. Cleanout and pit were also checked and found no odor as well. The homeowner was notified.	No
----------	--------------	---	---	----

Area Addressed with the Flow Vac Monitoring System

Date	Address	Incident	Response	KLWTD Issue
11/2/24	Num Thai Buffer Tank	Received a low vacuum alarm call from vac station D	Tech checked the Flo vac Monitoring and went straight to the address of issue.	Found debris in valve.
11/2/24	234 James Ave	Received a low vacuum call from vac station E	Tech went to the vac station. Using the tank valves. Once determining an area Flo Vac monitoring was used to find the issue.	(Fernco)
11/3/24	AK #1668966 Empty Lot	Received a low vacuum alarm from vac station D	Tech isolated to an area using tank valves at the vac station. Once determining an area Flo Vac monitoring was used to find the issue.	(Valve)
11/10/24	1021 Valencia	Received a low vacuum alarm at vac station D	Tech isolated to an area using tank valve at the vac station. Once determining an area Flo Vac Monitoring was used to find the issue.	(Valve)
11/10/24	106 Mangrove Ave	Received a low vacuum alarm from vac station I	Tech checked the Flo vac monitoring system and saw that 106 Mangrove Ave was showing a valve open alarm.	(Valve)
11/11/24	501 Pounce Deleon Blvd	Received a low vacuum alarm from vac station D	Tech isolated the area using tank valve at the vac station. Once determining an area Flo Vac	(Debris in Valve)

			Monitoring was used to find the issue.	
11/18/24	500 Burton Dr	Received a low vacuum alarm from Vac Station JK	Ocean Point has 2 Buffer Tanks with dual sumps. Flo vac Monitoring was used to find high activations in this occasion. Because nothing was showing an actual valve stuck open alarm. Reason for the high activation was 1 sump at each buffer tank was not working causing the other sump to intake all the flow and overwhelm the one.	(Valve)
11/18/24	200 Barracuda Blvd 760 Oceanna Blvd	Low vacuum alarm at Vac Station A	Tech isolated issue using the tank valve at the vac station. Once determining an area. Flo Vac monitoring was used to find the issue.	2 Issue were found in this occasion. 200 Barracuda (controller) 760 Oceana (valve)
11/28/24	151 Blue Harbor Dr	Low vacuum alarm at Vac Station JK	Tech isolated issue to a specific area at the station. Then using the Monitoring system issue was found.	(Valve)
11/30/24	63 W 1st Ct	Low vacuum alarm at Vac Station E	Tech isolated issue using the tank valve at the vac station. Then using the monitoring system issue was found.	Controller Hose
11/30/24	1521 Shaw Dr	Low vacuum alarm at Vac Station D	Isolated issue to an area, while using the monitoring system the problem was found.	(Valve)

			The remaining 9 system generated alarms; are not under the monitoring system!!!!	
--	--	--	--	--

Exhibit 1

Suspected salt water leak due to consistency of activations.

Exhibit 2

Suspected homeowner side leak due to activation history.

Exhibit 3

One day spike in activations suspected homeowner usage.

Exhibit 4

Suspected leak on homeowner side needs further investigation.

Exhibit 5

Confirmed saltwater leak from homeowner side.

Exhibit 6

Suspected leak on homeowner side due to activation history.

General Manager

Wastewater Treatment Plant Operations

The wastewater treatment plant processed an average of 2.0 million gallons of influent per day (MGD). The Treatment Plant remains in compliance with the Florida Department of Environmental Protection (FDEP) guidelines.

Effluent Quality Reports (mg/L)

Determines the quality of discharge from the wastewater treatment plant.

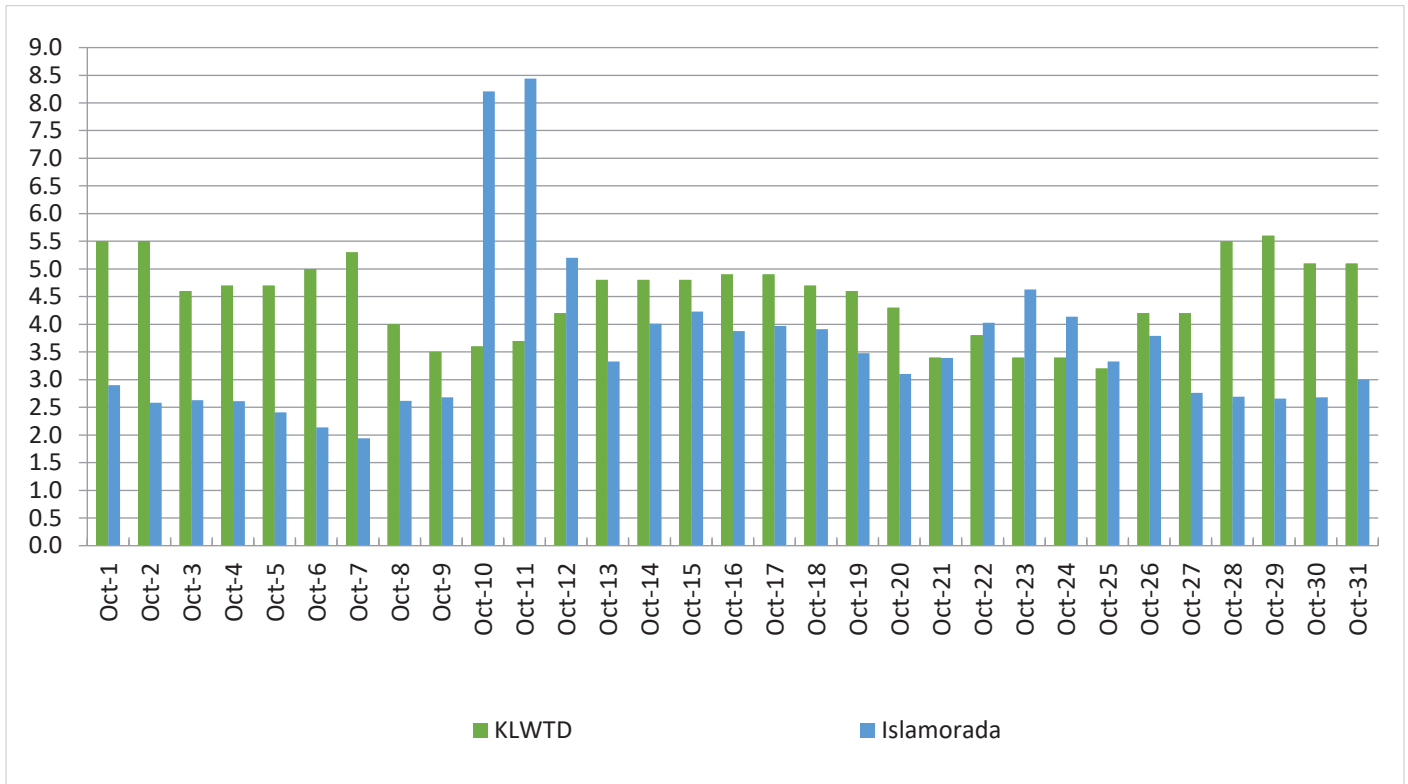

Effluent Quality Report	October 2024 Plant Performance	12 Month Average Plant Performance	Effluent Limits
CBOD5 (Carbonaceous Biochemical Oxygen Demand)	1	1.7	5
TSS (Total Suspended Solids)	1.5	1.3	5
TN (Total Nitrogen)	2	2.2	Report only
TP (Total Phosphorous)	.5	.7	Report only

Daily Flow (MGD)

The total flow of influent through the wastewater treatment plant each day.

Daily Peak Salinity (PPT)
The daily peak salinity for the current month.

Islamorada

Average Daily Flow: .683 MGD

Highest Daily Flow: .952 MGD

Monthly Peak Salinity: 8.4 PPT

Days over 4.0 PPT Salinity: 8

3-month average of Islamorada flow capacity (1.104 MGD): 65%

Key Largo Wastewater Treatment District Capital Projects Report

Including updates through November 2024

Current Capital Projects

Project	Original Contract Amount	Current Contract Amount (Including Direct Purchases, change orders and Amendments)	Engineering And Other Cost (Anticipated)	Total Project Cost (Anticipated)
Vacuum Stations Modifications	\$ 3,155,800.00	\$3,270,999.76	\$270,000.00	\$3,540,999.76
	Engineering Paid to Date	Construction Paid to Date	Balance to Complete (Anticipated)	Percentage Complete
	\$256,452.50	\$2,450,704.90	\$833,842.36	76%

- The VPS modifications project was awarded to Reynolds Construction in the amount of \$3,155,800.00. The Agreement and the Notice to Proceed were both executed on May 18, 2023.
- WEC prepared I&C checklist for the startup of the emergency vacuum trailer and reviewed with all parties.
- Reynolds and AirVac conducted start up for stations A, D, I, G, and J/K during this period, programming for Station E was completed 11/13 and start up will be conducted the first week in December.
- Reynolds completed the stainless-steel odor control header pipe modifications at Vac Station D, A and I during the period.
- Reynolds, WEC staff and KLWTD staff attended the construction progress meeting on November 14th the meeting slated for November 28th was cancelled due to the Holiday.

Project	Original Contract Amount	Current Contract Amount (Including Direct Purchases, change orders and Amendments)	Engineering And Other Cost (Anticipated)	Total Project Cost (Anticipated)
Collection System Monitoring	\$7,575,677.00	\$9,581,965.61	\$780,000.00	\$10,361,965.61
	Engineering Paid to Date	Construction Paid to Date	Balance to Complete (Anticipated)	Percentage Complete
	\$779,360.00	\$7,558,883.34	\$2,023,722.27	80%

- Work was completed in Basins A, B, D, G, H, F and I
- Current Status:
 - Basin A: **293** installed (Basin complete)
 - Basin B: **383** installed (Basin complete)
 - Basin C: **48** installed (Basin in progress)
 - Basin D: **240** installed (Basin complete)
 - Basin E: **199** installed (Basin in progress)
 - Basin F: **339** installed (Basin complete)
 - Basin G: **231** installed (Basin complete)
 - Basin H: **45** installed (Basin complete)
 - Basin I: **225** installed (Basin complete)
 - Basin J/K: **437** installed (Basin in progress)
 - Total project installed: **2,440** out of **2,984**
 - **Sensor installation is approx. 81 % complete (Note: This is only sensors and does not include other aspects of the project)**
- Construction progress meeting was held on November 12th. The biweekly meeting slated for November 26th was cancelled due to the Holiday.
- During November, Flovac and IVC continued work in Basin E0.
- Valve rebuilds continued – 796 rebuilds completed. Continuing to target approx. 10-15 per day.
- Crews continued to walkthrough punchlist items for Basin JK during November.
- Crews have worked through punch list items for final completion of Basin I. Final Completion paperwork was issued.

Project	Original Contract Amount	Current Contract Amount (Including Direct Purchases, change orders and Amendments)	Engineering And Other Cost (Anticipated)	Total Project Cost (Anticipated)
Effluent Filtration Upgrades	\$ 3,043,820.00	\$3,332,095.76	\$385,000.00	\$3,717,095.76
	Engineering Paid to Date	Construction Paid to Date	Balance to Complete (Anticipated)	Percentage Complete
	\$370,306.25	\$2,613,259.36	\$733,530.15	80%

- The Effluent Filtration Upgrades project was awarded to Reynolds Construction in the amount of \$3,043,820.00 on May 15, 2023.
- The filter platform railings have been installed on all edges besides the north facing edge of the platform. Preliminary installation of the stairs from the existing access platform to the new elevated deck has been completed.
- Pipe supports were installed throughout the period.
- Excavation for the footers of the access walkway/stairs was completed and design of walkway continued throughout November.
- Coating of piping materials continued throughout November and was tested by WEC inspector.
- Hydrostatic testing of pipe passed during this period.
- Startup of the filter began on 10/22 with Evoqua staff conducting a start-up inspection.
- Aqua Aerobic began integrating the new disk filter into existing SCADA system in this period and will continue throughout the coming month.
- Evoqua/Xylem removed and examined the spray bars, confirming that the issue at Marathon was due to insufficient thread depth, which is not present at Key Largo. While the adapters at Key Largo have the proper thread depth, Evoqua/Xylem will add additional chamfering to address potential concerns with sharp edges or burrs before reinstalling the sprayer arm assemblies.
- Reynolds, WEC staff and KLWTD staff attended the construction progress meeting on November 14th. The meeting slated for November 28th was cancelled due to the Holiday.

Project	Original Contract Amount	Current Contract Amount (Including Direct Purchases, change orders and Amendments)	Engineering And Other Cost (Anticipated)	Total Project Cost (Anticipated)
Keys Holdings LLC Pump Station Replacement	\$ 375,555.75	\$375,555.75	\$28,000.00	\$403,555.75
	Engineering Paid to Date	Construction Paid to Date	Balance to Complete (Anticipated)	Percentage Complete
	\$25,802.50	\$338,321.81	\$39,431.44	90%

- The District piggybacked on a Marathon bid and awarded the Keys Holdings LLC project to Tropical Underground Contracting, LLC in the amount of \$375,555.75.
- The construction of this project was completed by October 2nd.
- Punch-list walkthrough occurred on October 2nd and substantial completion was issued.
- Final completion is awaiting the as-built survey from the contractor, then the project can be closed out.

Project	Original Contract Amount	Current Contract Amount (Including Direct Purchases, change orders and Amendments)	Engineering And Other Cost (Anticipated)	Total Project Cost (Anticipated)
Grinder Pump Lateral Kits Replacement Project	\$346,065.33	\$346,065.33	\$130,000.00	\$476,065.33
	Engineering Paid to Date	Construction Paid to Date	Balance to Complete (Anticipated)	Percentage Complete
	\$105,485.00	\$39,520.00	\$331,060.33	30%

- The Grinder Pump Lateral Kits Replacement Project was awarded to Page Excavation in the amount of \$346,065.33. The Agreement was executed on the 1st of July 2024. The Notice to Proceed was executed on the 12th of July 2024.
- CO #1 was approved for the ODP of the Stainless-Steel Lateral Kits for the project in September.
- Construction started for this project on 10/01/2024.
- Throughout the period the contractor installed 20 lateral kits and valve boxes for a total of 79 out of 145 valves and boxes.
- Currently working in C-905 on restorations and will be continuing onto properties on U.S. 1 in this coming month.
- Page Excavation, WEC staff and KLWTD staff attended the construction progress meetings on November 7th & 21st.

Project	Original Contract Amount	Current Contract Amount (Including Direct Purchases, change orders and Amendments)	Engineering And Other Cost (Anticipated)	Total Project Cost (Anticipated)
Power Conditioning and Electrical Upgrades at the WWTP	TBD	TBD	\$485,000.00	\$4,359,916.00
	Engineering Paid to Date	Construction Paid to Date	Balance to Complete (Anticipated)	Percentage Complete
	\$279,457.30	N/A	N/A	6%

- The Power Conditioning project went out to bid on 10/8.
- The pre-bid meeting was held on 10/28.
- Addendum 1 was uploaded on Monday, 11/4.
- Addendum 2 was uploaded on Thursday, 11/21.
- Addendum 3 was uploaded on Wednesday, 11/27.
- The bids are due on 12/19 by 10:00 a.m.
- RFP Ranking Meeting is tentatively scheduled for Dec. 30th at 10am.

Upcoming Construction Projects

Project	Estimated Total Cost	Status
<p style="text-align: center;">Upgrades of Odor Control at All Vacuum Stations and Upgrade of the Generators at Vac A and Vac D.</p>	<p style="text-align: center;">\$1,200,000 (Anticipated)</p>	<p>Weiler Engineering has been directed to proceed with this project in phases, with Vacuum Stations A and D being the first phase. The design of the odor control upgrades, including structural components and site plans continues. Preliminary plan sets have been created for Vacuum Stations A, D, E, G, I, and J/K. The District has requested an expansion of the easement area. The Archdiocese requested monetary compensation for the expanded easement area and approval to transfer assessment waivers to others, presumably for sale of the waivers. District Counsel has determined that the District has no procedures to allow transfer of the assessment waivers. The District was awaiting reply from Archdiocese about the proposed terms for the additional easement area, which was described in a letter from KLWTD sent in August. The construction plans and tech specs were finalized throughout the period and the project was posted for bid on December 9th, 2024.</p>
<p style="text-align: center;">Direct Potable Reuse Demonstration Project</p>	<p style="text-align: center;">\$1,504,301.25 (Anticipated)</p>	<p>The District has budgeted funds for a demonstration project to produce potable water from the WWTP’s treated effluent. 2021 Florida legislation established Direct Potable Reuse (DPR) as a preferred effluent disposal method and provides for DPR projects to be eligible for grant funding, treating WWTP effluent as an Alternative Water Supply. The District has applied for a planning grant for this project and has requested grant funding to be allocated for the design, permitting, and construction of the DPR demonstration project. Initial estimates indicate that the volume of water produced in the DPR demonstration project would be in the range of 150,000 to 250,000 GPD.</p>
<p style="text-align: center;">EQ Tank and Headworks Project</p>	<p style="text-align: center;">\$4,500,000 (Anticipated)</p>	<p>The EQ Tank and Headworks Project involves the installation of a new headworks as an upgrade to the current headworks at the KLWTD WWTP. This project also involves the installation of an influent EQ tank to regulate flow. This project is currently in the design phase with preliminary site plans and structural drawings for the EQ tank. Shop drawings have been received from Hydrodyne and a center flow screen has been selected for the headworks screening, which will reduce the footprint of the headworks space and has a higher catch rate and efficiency than the existing headworks. Due to a lack of a decision by Islamorada on the NPK booster station design, the District is moving forward with completing design, with incorporation of an additive alternate scope of work should Islamorada decide to keep the current booster pump design. Permitting efforts are underway with FDEP.</p>

Blower Room Modifications Project	\$250,000 (Anticipated)	The KLWTD staff has requested the addition of an access door behind blower #4 to better service the blower. Currently, the other blowers must be removed in order to access blower #4. These modifications will allow for more efficient service of the blowers. This project is currently in the preliminary design phase.

Request for Wastewater Assessment Waiver or Exemption

ALL fields must be completed, unless indicated as optional, before the request will be reviewed.

Property Owner of Record: Crawdaddy Inc

Requested By*: owner
**If not Owner of Record, authorization documentation must be submitted.*

Email (optional): Jamesjill@belksouth.net Phone: _____

RE/Parcel ID: 00544920-000000 Alternate Key: 1668435

Physical Location: 1010 Gibraltar Rd, Key Largo, FL 33037

RE/Parcel ID: 00544930-000000 Alternate Key: 1662443

Physical Location: 1008 Gibraltar Rd, Key Largo, FL 33037

RE/Parcel ID: _____ Alternate Key: _____

Physical Location: _____

I request an **EXEMPTION** of wastewater assessment for the parcel(s) listed above because:

- The parcel is vacant and has been aggregated with an adjoining parcel that is connected to the District's central wastewater collection system. *Section 10.05 (a)*
- The parcel is a marina, boat slip or rack minimum that is not capable of creating wastewater. *Section 10.05 (b)*
- The parcel cannot be improved due to zoning regulations or other legal constraints. *Section 10.05 (c)*
- The parcel cannot be improved due to physical conditions of the property. *Section 10.05 (d)*

I request a **WAIVER** of wastewater assessment for the parcel(s) listed above because:

- The parcel is vacant and immediately adjacent to an assessed parcel that is connected to the District's central wastewater collection system. *Section 10.06 (a)(i) Contiguous Vacant Parcel*
***\$200.00 administrative fee required.**
- The parcel is vacant and designated as Tier I. *Section 10.06 (a)(ii) Tier 1 (one) Vacant Parcel*
***\$200.00 administrative fee required.**
- The parcel is vacant and only receives an annual tax notice due to the wastewater assessment. *Section 10.06 (a)(iv) Minimum Tax Bill*
- The parcel is owned by Monroe County Land Authority or any other Federal, State or Local Agency for the purpose of protecting the natural environment. *Section 10.06 (a)(iii) - Conservation Parcel*
- The parcel is being conveyed to the Monroe County Land Authority or any other Government Agency for conservation purpose. **The Waiver shall take effect upon receipt by the District of proof that the Government Entity has acquired title to the Subject Tax Parcel.** *Section 10.06 (a)(iii) - Conservation Parcel*

Acknowledgement Box required to process all exemptions Section 10.04(a) or waiver requests Section 10.06(b)

Certify that if wastewater service to the parcel is reinstated, the then-current owner must pay the full direct and indirect District costs of providing the same. The amount charged at that time is expected to be significantly greater than the current non-ad valorem assessment.

Signature James Crawford Date November 19, 2024

This completed request form may be emailed to customerservice@klwtd.com or submitted to the District office located at:

RESOLUTION NO. 24 - 2024

A RESOLUTION OF THE BOARD OF COMMISSIONERS OF THE KEY LARGO WASTEWATER TREATMENT DISTRICT (“THE BOARD”) APPROVING THE REQUEST BY CRAWDADDY INC (“THE OWNER”), FOR THE REMOVAL OF TWO TAX PARCELS AK# 1668435; AND AK# 1668443 FROM THE 2006 NON-AD VALOREM ASSESSMENT ROLL; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Crowdaddy Inc (“The Owner”) is the owner of the tax parcels described in Section 1 below (“the Subject Tax Parcels”); and

WHEREAS, the Key Largo Wastewater Treatment District (the “District”) assessed the Subject Tax Parcels via Resolution 28-08-06 dated August 9, 2006 (the “2006 Non-ad Valorem Assessment Roll”); and

WHEREAS, the Subject Tax Parcels are being conveyed to the Monroe County Comprehensive Plan Land Authority for conservation purposes; and

WHEREAS, the Owner requests that the District remove the Subject Tax Parcels from the 2006 Non-ad Valorem Assessment Roll, pursuant to the Key Largo Wastewater Treatment District’s General Rules and Regulations, Section 10.06(a)(iii).

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COMMISSIONERS OF THE KEY LARGO WASTEWATER TREATMENT DISTRICT THAT:
