1. Minutes

Approved By:  Date: 02/27/2025
General Manager

Key Largo Wastewater Treatment District
103355 Overseas Hwy, Key Largo, FL
Tuesday, February 18, 2025

MINUTES

CALL TO ORDER (A)

Chairman Rodriguez called the meeting to order at 4:00 p.m.

PLEDGE OF ALLEGIANCE (B)

Commissioner Sue Heim led the Pledge of Allegiance.

ROLL CALL (C)

Present were: Chairman Nicolas Rodriguez; Commissioners Sue Heim, Robert Majeska, Tim Maloney, and Philip Schwartz

Also present: General Manager Peter Rosasco; General Counsel Nicholas Mulick; District Clerk Shannon McCully; Finance Manager Connie Fazio; Field Manager Rudy Perez; Plant/Facilities Manager Ryan Dempsey; Weiler Engineering Steve Suggs and Lexi Connor; IT Support Manny Santana

Appeared Virtually: Project Administration and HR Coordinator Laura Weinstock; IT Support Randy Redmond

AGENDA ADDITIONS, CORRECTIONS, OR DELETIONS (D)

Approval of Agenda (E-1)

Commissioner Heim requested the addition of item *P-1 Key Largo Fisheries Discussion*
Mr. Rosasco requested the addition of item *G-1 Plant Permit Update*
Mr. Rosasco requested the deletion of item *N-1 Vacuum Stations Odor Control Project Recommendation of Award*

Motion: Commissioner Maloney made a motion to approve the agenda as amended. Commissioner Majeska seconded the motion. Motion passed without objection.

PUBLIC COMMENT (E)

No speakers.

APPROVAL OF MINUTES (F)

Minutes of February 4, 2025 (F-1)

Motion: Commissioner Heim made a motion to approve the minutes of February 4, 2025. Commissioner Schwartz seconded the motion. Motion passed without objection.

GENERAL MANAGER (G)

Plant Permit Update (G-1)

Mr. Rosasco informed the Board our DEP permit for the Plant was finalized.

CUSTOMER SERVICE (H)

Customer Service Report – January 2025 (H-1)

Ms. Fazio presented the Customer Service monthly report.

IT (I)

IT Report – January 2025 (I-1)

Mr. Redmon presented the IT monthly report.

BUDGET AND FINANCE (J)

Budget and Finance Report – January 2025 (J-1)

Ms. Fazio present the Budget and Finance monthly report.

FIELD (K)

Field Report – January 2025 (K-1)

Mr. Perez presented the Field monthly report.

PLANT/FACILITIES (L)

No report in agenda.

CAPITAL PROJECTS (M)

Capital Projects Report – January 2025 (M-1)

Ms. Connor presented the Capital Projects monthly report.

ENGINEERING (N)

Vacuum Stations Odor Control Project Recommendation of Award (N-1)

Deleted.

LEGAL REPORT (O)

Board Practices and Policies Manual – Resolution No. 02-2025 (O-1)

Mr. Mulick recommended adoption of Resolution 02-2025

**Motion: Commissioner Heim made a motion to adopt Resolution 02-2025.
Commissioner Schwartz seconded the motion.**

Vote on Motion:

**Commissioner Heim – Aye
Commissioner Schwartz - Aye
Commissioner Maloney – Aye
Commissioner Majeska – Aye
Chairman Rodriguez – Aye**

General Rules and Regulations – Resolution No. 03-2025 (O-2)

Mr. Mulick recommended adoption of Resolution 03-2025.

**Motion: Commissioner Heim made a motion to adopt Resolution 03-2025 with
an effective date of March 1, 2025.
Commissioner Maloney seconded the motion.**

Vote on Motion:

**Commissioner Heim – Aye
Commissioner Maloney – Aye
Commissioner Schwartz – Aye
Commissioner Majeska – Nay
Chairman Rodriguez – Aye**

Adoption of Resolution No. 04-2025 Increasing Rates (O-3)
Mr. Mulick recommended adoption of Resolution 04-2025.

**Motion: Commissioner Maloney made a motion to adopt Resolution 04-2025 with an effective date of March 1, 2025.
Commissioner Heim seconded the motion.**

Vote on Motion:

**Commissioner Maloney – Aye
Commissioner Heim – Aye
Commissioner Schwartz – Aye
Commissioner Majeska – Nay
Chairman Rodriguez – Aye**

South Cliff Estates SIC/ILA - Status Update (O-4)
Mr. Mulick updated the Board on the current status of the South Cliff Estates SIC and ILA.

COMMISSIONER ITEMS (P)

Key Largo Fisheries Discussion (P-1)

Commissioner Heim requested clarification on the current proceedings with Key Largo Fisheries.

ROUNDTABLE DISCUSSION (Q)

Commissioner Maloney told the Board KLWTD’s Safety Committee Meeting will be Tuesday, February 25th.

ADJOURNMENT (R)

The meeting was adjourned at 5:34 p.m.

Nicolas Rodriguez, Chairman

Shannon McCully, Clerk

Seal_____

EXHIBIT A

Section 1. The KLWTD General Rules and Regulations are amended as follows: (all deleted text is lined through and additional text underlined)

Section 9.03 Fees and Charges for Wastewater Service.

- (a) Monthly Base Charge for Customers receiving water from FKAA:
- i. For each Customer that is the sole FKAA Customer owning or occupying a Tax Parcel assessed by the District and connected to a collection system, transmission main, or other piping operated and maintained by the District, the Monthly Base Charge is ~~\$27.13~~\$28.81 per Dwelling Unit or Equivalent Dwelling Unit reflected in the most recent assessment of the Tax Parcel.
 - ii. For each Customer that is one of several FKAA Customers occupying a Tax Parcel assessed by the District and connected to a collection system, transmission main, or other piping operated and maintained by the District, the Monthly Base Charge is ~~\$27.13~~\$28.81 multiplied by the number of Dwelling Units or Equivalent Dwelling Units attributed to that Customer.
 - iii. For each FKAA Customer owning or occupying a Tax Parcel that has not yet been assessed by the District, the District will calculate the number of Dwelling Units or Equivalent Dwelling Units attributable to the Tax Parcel and to the Customer in the manner provided in the District's most recent final Non-Ad Valorem Assessment Resolution, and will calculate the Customer's Monthly Base Charge on that basis until the District has assessed that Tax Parcel. After the District has assessed that Tax Parcel, the Monthly Base Charge for that Customer will be calculated in the manner provided in other paragraphs of this Section.
 - iv. In addition to the Monthly Base Charges provided herein, the District may impose BOD surcharges as provided in Section 9.04 below.
 - v. For FKAA meters coded as Fire or Irrigation Meters, there will be no Monthly Base Charge.
 - vi. The Monthly Base Charge for a Laundromat is ~~\$27.13~~\$28.81.
- (b) Monthly Volumetric Charge for Customers receiving water from FKAA:
- i. For each FKAA Customer with a residential use meter, the Monthly Volumetric Charge is ~~\$4.26~~\$4.52 per 1,000 gallons of water billed, as reflected on the Customer's FKAA monthly statement. The maximum monthly volume for which the Monthly Volumetric Charge will be billed is 12,000 gallons per residential Dwelling Unit.

- ii. For each FKAA Customer with a non-residential use meter, the Monthly Volumetric Charge is ~~\$4.26~~\$4.52 per 1,000 gallons of water billed, as reflected on the Customer's FKAA monthly statement. There is no maximum monthly volume for which the Monthly Volumetric Charge will be billed on non-residential use meters.
 - iii. For water meters coded in FKAA records with a location class that indicates that the water be used solely for fire or irrigation, there will be no Monthly Volumetric Charges.
- (c) Direct billing (customers receiving bills directly from KLWTD)²⁹
- (i) Boating facilities pumpout systems connected to the District's wastewater system:
 - (1) the annual base charge is \$500 and shall be billed semiannually.
 - (2) the volumetric charge of ~~\$17.82~~\$18.92 per thousand gallons of wastewater discharged into the District's system shall be billed semiannually.

1. Upcoming Projects for Key Largo Wastewater Treatment District Memo

Approved By:  Date: 02/27/2025
General Manager

MEMORANDUM

To: Peter Rosasco, General Manager
From: Lexi Connor, E.I., Weiler Engineering
Date: February 21st, 2025
Re: Upcoming Projects for Key Largo Wastewater Treatment District
CC: Connie Fazio, Finance Manager; Steve Suggs, District Engineer

The Key Largo Wastewater Treatment District (KLWTD) is undertaking a series of critical infrastructure projects aimed at improving wastewater treatment, addressing vulnerabilities from sea level rise, and ensuring compliance with evolving environmental regulations. These projects, which are estimated to cost a total of \$30 million, are ranked in order of importance to ensure that the most urgent needs are addressed first. The following provides an overview of each initiative and its significance.

| Rank | Project Description | Project Start Date | Total Capital Cost | USACE Funded to Date | Other Funding to Date (Non-FKWQIP) | Additional Funds Needed (FKWQIP) |
|------|---|--------------------|--------------------|----------------------|------------------------------------|----------------------------------|
| #1 | Headworks and Influent EQ Tank | Aug. 2025 | \$4,704,000 | \$0.00 | \$3,372,133 | \$1,331,867.47 |
| #2 | Collection System Elevation Adjustments for Monroe County's Sea Level Rise Projects, First Phase 2025-2030 | Sept. 2025 | \$9,632,489 | \$0.00 | \$0.00 | \$9,632,488.71 |
| #3 | Collection System Elevation Adjustments for Monroe County's Sea Level Rise Projects, Second Phase 2030-2035 | Sept. 2030 | \$2,230,116 | \$0.00 | \$0.00 | \$2,230,115.84 |
| #4 | Collection System Elevation Adjustments for Monroe County's Sea Level Rise Projects, Third Phase 2035-2040 | Sept. 2035 | \$865,155 | \$0.00 | \$0.00 | \$865,155.29 |
| #5 | Collection System Elevation Adjustments for Monroe County's Sea Level Rise Projects, Fourth Phase 2040-2045 | Sept. 2040 | \$1,085,110 | \$0.00 | \$0.00 | \$1,085,110.03 |
| #6 | Vacuum Station Sewage Tanks Upgrades | May 2025 | \$7,334,918 | \$0.00 | \$0.00 | \$7,334,917.66 |
| #7 | Sludge Conditioning Upgrades (membrane thickening) | Oct. 2025 | \$2,117,500 | \$0.00 | \$0.00 | \$2,117,500.00 |
| #8 | Pharmaceuticals Treatment and Potable Reuse Demonstration Project | Jan. 2028 | \$2,652,845 | \$0.00 | \$0.00 | \$2,652,845.00 |
| #9 | Reclaimed Water to Jonn Pennekamp State Park | Jan. 2028 | \$2,750,000 | \$0.00 | \$0.00 | \$2,750,000.00 |
| | | | | | Total | \$30,000,000.00 |

Table 1. Project Ranking and Funding Summary

The Headworks and Influent EQ Tank project is ranked as the top priority, focusing on upgrading the wastewater treatment plant’s headworks and influent equalization tank. These improvements will help stabilize influent flow variations, increasing the efficiency of wastewater treatment while reducing the risk of system overloads. By optimizing treatment processes, this project will contribute to better water quality and minimize the risk of untreated discharges into sensitive coastal ecosystems.

KLWTD is also addressing sea level rise through a series of Collection System Elevation Adjustments planned through 2045. These projects, ranked as the next highest priorities, aim to

modify wastewater infrastructure in response to rising groundwater levels and increased flooding risks, as highlighted in the Florida Department of Environmental Protection Statewide Resilience Plan. One example is the Stillwright Point Neighborhood Vacuum Sewer Pits project, which has received \$749,375 in funding from the FDEP Resilient Florida Grant but requires an equal match to complete. As roads in the neighborhood are elevated to mitigate flooding, the vacuum sewer pits must also be raised to maintain system integrity. These elevation adjustments will help ensure that KLWTD's wastewater collection system continues functioning despite rising sea levels, preventing potential service failures and environmental contamination.

The Vacuum Station Sewage Tanks Upgrades project is another high-priority initiative, addressing the deteriorating condition of KLWTD's vacuum station sewage tanks, which have developed corrosion and holes due to the harsh, salty environment of the Florida Keys. Since these tanks are vital to the wastewater collection system, replacing and upgrading them is essential to maintaining reliable service, preventing leaks that would negatively impact water quality.

Another key initiative is the Sludge Conditioning Upgrades (Membrane Thickening) project, which will improve sludge processing efficiency at KLWTD's wastewater treatment facility. By implementing membrane thickening technology, the district will be able to reduce sludge volume, while enhancing the quality of treated effluent. This improvement directly supports water quality initiatives by ensuring that discharged water meets or exceeds environmental standards.

In response to new state regulations, KLWTD is implementing the Pharmaceuticals Treatment and Potable Reuse Demonstration Project to comply with Florida Statute 403.064, which mandates that wastewater treatment plants phase out surface water discharges by 2032 and transition toward water reuse. This initiative will help remove pharmaceutical contaminants from treated wastewater, protect aquatic ecosystems, and contribute to a sustainable water supply. By advancing potable reuse technology, KLWTD is taking a proactive approach to both regulatory compliance and environmental stewardship.

Finally, KLWTD is working on the Reclaimed Water to John Pennekamp State Park project, which will provide treated wastewater for non-potable uses at the park. This initiative supports water conservation efforts by reducing reliance on potable water for irrigation and other non-drinking purposes. Additionally, it aligns with Florida's push toward water reuse, demonstrating KLWTD's commitment to sustainable water management practices.

These projects, prioritized based on urgency and impact, collectively represent a significant investment in the long-term resilience of KLWTD's wastewater infrastructure. They will enhance system reliability, protect local water quality, and position the district to meet future regulatory requirements. By securing the necessary funding and implementing these improvements, KLWTD is ensuring that its infrastructure remains robust and sustainable in the face of environmental and regulatory challenges and supports KLWTD's mission to preserve and protect the delicate ecosystem of the Florida Keys.

FY2025 Portal Application Submitted

FLORIDA KEYS WASTEWATER PROJECTS

A WISE INVESTMENT IN THE ECONOMY AND THE ENVIRONMENT

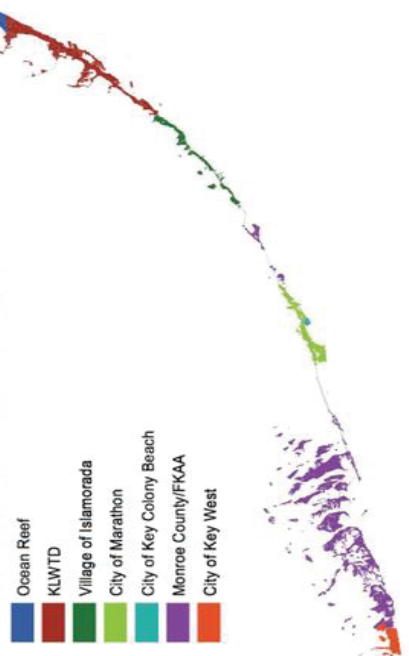

PROJECT BENEFITS

- Protect the only living barrier reef in the continental United States.
- Eliminate 23,000 cesspits and septic tanks polluting nearshore waters.
- Preserve \$56M recreational and commercial fisheries and 90% of the state's stone crab, lobster, and finfish harvest.
- Enhance the \$2.3B marine-based tourism industry.
- Protect 33,000 tourism-related jobs.

COMPLETED PROJECTS

- Installation of solar arrays at the WWTP and at all the vacuum stations, producing an output of 663 kWp, the largest solar project in the FL Keys.
- Installation of the fire detection and suppression systems and toxic gas detection at all District facilities.
- Constructed a mobile emergency vacuum pump station to ensure continuous wastewater conveyance in catastrophic events. This mobile vacuum station can be used at any of KLWTD's vacuum pump stations in the event of system failures, power outages, or even maintenance events.

Wastewater Service Providers

CURRENT PROJECTS

- The installation of a proactive monitoring system for the Key Largo collection system focuses on improving water quality by reducing inflow and infiltration (I&I) from wet weather and high tide events. Vacuum valve activation detection devices have been installed to identify and mitigate leaks, preventing excess stormwater and saltwater from entering the system. By addressing these infiltration sources, the project has already reduced 105,000 gallons per day (GPD) of saltwater I&I and 205,000 GPD of wet weather I&I. Construction is approximately 82% complete.
- The Effluent Filtration Upgrade project enhances water quality by improving the wastewater treatment plant's filtration capacity. The installation of a more efficient filtration system increases the removal of total suspended solids (TSS), ensuring clearer effluent and reducing contaminants before disposal. This upgrade strengthens system reliability, prevents filtration failures, and enhances nutrient removal, protecting local waters, including the Florida Keys National Marine Sanctuary. Construction is approximately 85% complete. Replacing corroded piping at all KLWTD Vacuum Stations with non-corrosive materials like stainless steel and PVC. The project also includes installing piping and electrical fittings to support the emergency mobile vacuum station, ensuring continued operation during system failures, which ultimately protects water quality and the surrounding environment from system backups and potential spills. Construction is approximately 88% complete.
- Electrical upgrades at the wastewater treatment plant including stabilizing power supply to protect critical equipment from surges, adding lighting protection, and replacing corroded electrical conduit with above-ground PVC. This reduces power disruptions, preventing system failures that could lead to untreated / partially treated wastewater discharge. Construction began February 2025.

STILL YET TO DO IN KEY LARGO

- Adjust KLWTD infrastructure elevations concurrently with Monroe County road raising projects to adjust for sea level rise. (See Reverse Side)
- Install an influent equalization tank to manage peak flows, preventing hydraulic overloads and providing short-term storage during maintenance or high-flow events. By ensuring a consistent flow rate, it optimizes biological treatment efficiency and ensures that untreated effluent does not spill on the ground or into the shallow well at the wastewater plant.
- Install an upgraded headworks with high-efficiency center-flow screens that improve solids removal, reducing blockages and wear on downstream equipment. This upgrade enhances treatment reliability, prevents debris from disrupting biological processes, and supports compliance with nitrogen reduction goals, further safeguarding local water quality.
- Implementation of a Direct Potable Reuse Demonstration Project that will treat effluent using reverse osmosis technology to produce potable water. This will reduce withdrawal from already-stressed potable water aquifers and will provide a potable water source should pump stations or water mains be damaged and unable to transport water from mainland Florida into the Keys.
- Upgrading KLWTD's odor control at all vacuum pump stations by replacing aging indoor systems with advanced dual carbon filtration units installed outdoors. The new lead/lag dual-tank design ensures continuous operation, significantly enhancing odor management. Relocating the system outdoors reduces hydrogen sulfide exposure, improving worker safety and eliminating confined space hazards. Additionally, the upgrade protects critical vacuum station infrastructure by preventing sulfuric acid corrosion, preserving the collection system and water quality.

Protecting the Investment in the Economy & the Environment

- KLWTD has evaluated the Monroe County Roadway Vulnerability Analysis and Capital Plan technical memorandum which provides detailed information on the County's plans for raising roads to address projected sea level rise in unincorporated Monroe County.
- All or portions of 187 roads in the KLWTD service area are identified to be raised between now and 2045. KLWTD will need to raise portions of its wastewater infrastructure concurrently with the County's adjustment of road elevations to match the new proposed surface elevations.
- The new proposed flood maps show increases in the 100-year flood elevations for locations where KLWTD facilities currently exist. KLWTD is planning to implement flood-proofing of its facilities in these locations to accommodate the increased flood risks.
- The cost of adjusting the KLWTD infrastructure to accommodate sea level rise has been estimated to be approximately \$16 Million to \$20 Million.
- KLWTD is coordinating with Monroe County on its sea level rise projects to ensure proper planning and integration of wastewater infrastructure adjustments.
- Failure to protect and adjust KLWTD's wastewater infrastructure as roads are elevated will jeopardize the entire wastewater collection system, leading to severe service disruptions, increased maintenance costs, and potential environmental contamination.
- The economy of the Florida Keys is directly tied to infrastructure resilience. If roads remain flooded and impassible, residents will struggle to access their homes, businesses will suffer, and tourism – an essential economic driver – will be severely impacted. Ensuring that wastewater infrastructure keeps pace with road elevation projects is critical for maintaining livability, property values, and economic stability.

1. Memo from Raftelis

Approved By:  Date: 02/27/2025
General Manager

MEMO

To: Ms. Connie Fazio, Finance Director
Key Largo Wastewater Treatment District

From: Trevor McCarthy, Manager
Raftelis Financial Consultants, Inc.

Date: February 26, 2025

Re: Fiscal Impact of Changes to Rate Increase Implementation Date

The Key Largo Wastewater Treatment District Board recently adopted a 3-year rate increase based on recommendations from Raftelis’ rate study completed in December of 2024. The study assumed rate increases would begin January 1, 2025 and subsequent increases would be effective on October 1st of each year. Due to additional meetings held to discuss the rate study, the initial implementation date was deferred to March 1, 2025.

Raftelis was asked to identify the projected fiscal impacts of changing subsequent implementation dates from the initial assumption of October 1st of each year to January 1st or March 1st. The table below shows the projected revenues for potential future effective dates compared to the initial assumptions:

| Description | FY2025 | FY2026 | FY2027 | Total | Difference |
|------------------------------------|-------------|-------------|-------------|--------------|-------------|
| Jan. 1, 2025 / Oct. 1, 2025 & 2026 | \$8,206,617 | \$8,841,701 | \$9,353,920 | \$26,402,239 | |
| Mar. 1, 2025 / Oct. 1, 2025 & 2026 | \$8,125,260 | \$8,841,701 | \$9,353,920 | \$26,320,881 | (\$81,358) |
| Mar. 1, 2025 / Jan. 1, 2026 & 2027 | \$8,125,260 | \$8,719,320 | \$9,231,241 | \$26,075,821 | (\$326,417) |
| Mar. 1, 2025 / Mar. 1, 2026 & 2027 | \$8,125,260 | \$8,637,733 | \$9,149,455 | \$25,912,448 | (\$489,791) |

As shown above, deferring the 2025 rate increase may result in approximately \$81,000 less revenues if subsequent increases are made on October 1, 2025 and 2026 as initially planned. Postponing the fiscal year 2026 and 2027 increases to January 1 or March 1 has a more significant and compounding effect resulting in between \$326,000 and \$490,000 less revenues cumulatively through fiscal year 2027.

It should be noted that the District is currently in an operating deficiency based on the results of the rate study, meaning that revenues are not fully recovering operating and maintenance expenses. These shortfalls must be funded from finite cash reserves. Other expenditures, such as capital projects, are projected to become more reliant on rate revenues as the availability of grant proceeds diminish.

It should also be noted that the rate plan adopted by the Board (alternative with removal of residential sewer cap or alternative #4) offered a more phased approach to rate increases than other options presented and, as a result, produces less revenues in the near term by comparison (the “proposed” options had higher rate increases during the first 5 years and lower increases in the subsequent 5 years, whereas the “alternative” options flattened the increases over the 10-year forecast period).

Though a January 1 or March 1 implementation date does not create a significant impact through fiscal year 2027, subsequent increases may need to be higher than initially planned to maintain cash reserves at appropriate levels, meet the debt service coverage required by the District’s State Revolving Fund loan agreement, and fully fund the capital improvement plan.

The Board should consider implementation of the fiscal year 2026 and 2027 rate increases no later than January 1 to minimize fiscal impacts. The sufficiency of rates should be reviewed, whether internally or by a consultant, before implementation of the fiscal year 2028 rates, upon the need for the District to issue additional debt, or if other significant changes occur compared to the assumptions relied upon in the rate study.

Key Largo Wastewater Treatment District Board of Commissioners Meeting Agenda Item Summary

Meeting Date:
March 4, 2025

Agenda Item Number: L-1

Action Required:
No

Department:
Plant/Facilities

Sponsor:
Ryan Dempsey

Subject:
Plant/Facilities Report - January 2025

Summary:
Mr. Dempsey will present the Plant/Facilities monthly report.

Reviewed / Approved

Financial Impact

1. Monthly Report

Approved By: 
General Manager

Date: 02/27/2025

Wastewater Treatment Plant Operations

The wastewater treatment plant processed an average of 1.92 million gallons of influent per day (MGD). The Treatment Plant remains in compliance with the Florida Department of Environmental Protection (FDEP) guidelines.

Effluent Quality Reports (mg/L)

Determines the quality of discharge from the wastewater treatment plant.

| Effluent Quality Report | January 2025 Plant Performance | 12 Month Average Plant Performance | Effluent Limits |
|---|--------------------------------|------------------------------------|-----------------|
| CBOD5 (Carbonaceous Biochemical Oxygen Demand) | 1.5 | 1.7 | 5 |
| TSS (Total Suspended Solids) | 1.2 | 1.2 | 5 |
| TN (Total Nitrogen) | 2.9 | 2.4 | Report only |
| TP (Total Phosphorous) | .3 | .7 | Report only |

Daily Flow (MGD)

The total flow of influent through the wastewater treatment plant each day.

Daily Peak Salinity (PPT)
The daily peak salinity for the current month.

Islamorada

Average Daily Flow: .736 MGD
 Highest Daily Flow: .974 MGD
 Monthly Peak Salinity: 1.9 PPT
 Days over 4.0 PPT Salinity: 0
 3-month average of Islamorada flow capacity (1.104 MGD): 65%

Corrosion control/painting projects at the treatment plant.

Fleet

New Field construction truck was outfitted with water tank and pump, emergency strobes, power inverter, air compressor system, spray in bed liner, pipe/ladder rack and a vacuum pit pump system.
