with Mr. Paul Christian and Mr. Ray Giglio to discuss the Contract Management Specialist and Records Custodian positions.

Commissioner Tobin also raised his concern that the Staffing Chart appears to show the District’s Legal Counsel, Engineer, and Finance Director reporting to the General Manager. Commissioner Tobin expressed his view that these positions should report directly to the Board, and that the Staffing Chart should reflect that hierarchy.

Chairman Asdourian asked staff to research how and when the Staffing Plan has changed in the years since 2012, and to provide the minutes of the meeting at which the Staffing Plan was adopted. The Board has requested this item be brought back for discussion, with supporting documentation, at a future meeting.

COMMISSIONER'S ITEMS / ROUNDTABLE

Memo from Commissioner Tobin

Commissioner Tobin presented a memo to publicly reprimand Mr. Paul Christian to the Board. Commissioner Tobin stated that he did not want to relive the past, that this was the best way to correct the issues stated, and to put the subject in the past. Commissioner Tobin indicated that, in his view, if the Board does not reprimand Mr. Christian, the Board is “approving the conduct.”

Commissioner Gibbs expressed his opinion that there is no need to have any continued discussion on this subject, and that it has been blown out of proportion.

Commissioner Majeska expressed his feelings that Operations Manager Dan Saus left the District because of Mr. Christian, and that this public reprimand is the bare minimum that the Board should call for. Commissioner Majeska also informed the Board that he originally intended to come to the meeting and call for Mr. Christian’s resignation.

Mr. Christian stated he did not blame Mr. Saus for any acid damage found in the tanks, and in fact, Mr. Saus came up with a plan, along with Mr. Ed Castle, to mitigate this type of damage in the future.

Chairman Asdourian explained that he had lunch with Mr. Saus, and he said Mr. Saus did not leave the District because of any problems with Mr. Christian. Chairman Asdourian said that Dan was not happy seeing his name and salary in the newspaper, and he decided to take a position in Marathon because of this.

Motion: Commissioner Tobin made a motion to Publicly Reprimand General Manager Mr. Paul Christian, and Commissioner Majeska seconded the motion.

Conduct Reality Check

I am of the opinion that as of late, some of the conduct being displayed here around the KLWTD is in dire need of a dose of reality. The five elected commissioners of the board have a responsibility to the people of Key Largo and the employees of the District. This responsibility includes making policy decisions that have the potential of effecting both the environment and the lives of numerous people. At times there will be requests from individual commissioners or the Board as a whole for information dealing with various matters. It is staffs job to provide the information that is requested without question or drama. What is done with that information from that point is the responsibility of that person or persons.

The Board members also need to recognize that individually we DO NOT have the authority to give direct orders to staff, employees, vendors, and contractors or make unilateral decisions which affect the KLWTD. That is why the Board is elected, where the process of open discussion takes place during public meetings, and the Board makes decisions based upon a majority vote. The people that put the commissioners on the Board of the KLWTD expect and deserve more than what they are getting. The public, the employees, and fellow commissioners DO NOT deserve to have to tolerate the profanity, name calling, innuendos, and lack of professionalism which is happening.
As the Chair of the Board, I have, in my opinion been doing less than a quality job by allowing this type of conduct to continue. So in the future if any of this conduct is displayed I will make quick use of the gavel and declare that the individual is out of order.

Now this being said, Sadly there will be those who will pick this apart and find fault with what has been said. The bottom line is the commissioners, staff, and employees all need to step back and consider what they can do as an individual to make this a better place.
